- High quality water at affordable rates (\$1.32 m³ & \$1.35 m³) to Regional partners.

Legislative Requirements

The 2013 Operating Budget and Tax Rate Bylaw #2039-13 have been prepared based on the 3 year 2013 – 2015 Interim Operating Budget approved November 20th, 2012, the 2013 Capital Budget approved on December 18th, 2012, as well as several subsequent individual budget adjustments that are considered necessary due to improved forecasting.

Section 353 of the *Municipal Government Act* authorizes a Council to impose a tax in respect of property in the municipality to raise revenue to be used toward the payment of the expenditures set out in the budget of the municipality. Administration recommends that the 2013 Operating Budget be adopted by Town Council prior to the 2013 Tax Rate Bylaw being given all required readings.

Property values for 2013 assessment purposes increased by \$40.74 million (5.99%) over 2012 including \$34.98 million (5.15%) due to new construction growth and \$5.76 million (0.84%) due to inflation.

Assessment Valuation and the Financial Impact on Municipal Property Taxation

For 2013 property assessment/tax calculation purposes, pre-existing residential properties appreciated by an average of only 0.58% while pre-existing non-residential properties appreciated by a significantly higher average of 1.49%. Historically this represents very minor inflationary assessment growth as compared to a much higher trend that occurred between the years 2006 to 2009:

	<u>2013</u>	<u>2012</u>	<u>2011</u>	<u>2010</u>	<u>2009</u>	<u>2008</u>	<u>2007</u>	<u>2006</u>
Residential	0.58%	0.07%	0.26%	0.69%	9.48%	37.38%	19.45%	9.28%
Non-Residential	1.49%	3.16%	1.44%	1.03%	5.79%	15.28%	14.92%	2.95%

In considering the fair, equitable and transparent treatment of properties in both tax classes, a base split municipal tax rate is calculated and utilized to ensure that the cumulative amount of municipal taxes collected from pre-existing properties in each property tax class is the same amount as was collected in the previous year. Following this, Council's desired and approved tax rate change(s) for each class are independently applied and a new split tax rate is calculated for each class.

In this way Town Council can achieve a desired and relatively accurate outcome from each property tax class without any municipal tax burden shifting between classes due to assessment valuation variations. There is tax shifting occurring within each tax class.

2013 Municipal Property Taxation

The 2013 Interim Operating Budget previously authorized a 3% tax increase for municipal purposes from both tax classes with the school and housing authority estimated tax impacts being extra. Since then the actual 2013 education and housing requisitions have been received.

A Summary of 2013 Property Taxation Options (see spreadsheet) has been prepared to quantify some alternative cumulative financial/budgetary impacts at various reasonable taxation increases over 2012 levels.

Administration has present the 2013 Operating (Tax) Budget and Tax Rate Bylaw based on the following assumptions as authorized during the 2013 Interim Budget process:

Average 3.0% municipal tax increase to pre-existing residential properties

Average 3.0% municipal tax increase to pre-existing non-residential properties.

The 2013 property tax increases, as presented, will generate an additional \$129,403 for municipal purposes from pre-existing 2012 taxpayers, and an additional \$268,341 will be generated for municipal purposes from new construction growth.

The amount of municipal taxes expected to be generated from remaining annexed properties is approximately \$130,000 based on the Town's lower non-residential and farmland rates, however is subject to the County's lower residential rate.

2013 Combined Property Taxation

Municipal taxes are the primary component (roughly 2/3rds) of the annual property tax notice. However the other major component is the Education Property Tax Requisition (roughly 1/3rd); which has a significant impact on the overall amount of property taxes collected from both classes. The average percentage changes necessary from pre-existing 2012 tax classes are as follows; based on the actual 2013 Education Property Tax Requisition:

	<u>Residential</u>	<u>Non-Residential</u>
Municipal	3.00%	3.00%
Education	0.73%	- 1.89%

The proposed equal municipal tax rate percentage increase when combined with differing school tax rate percentages increases for each property tax class will result in unequal annual percentage increases between both tax classes.

Residential properties are required to generate an additional \$33,930 for school purposes however \$24,280 will be generated from new growth making only \$9,650 required from existing properties in 2013 (0.73%). The amount required from Non-Residential properties for school purposes has increased by \$76,800 however \$89,090 will be generated from new growth, thus allowing \$12,290 to be reduced from existing properties in 2013 (-1.89%).

This once again results in a relatively minor shift of the overall combined tax burden from Non-Residential properties on to Residential properties. Town Council has the ability utilizing split tax (mill) rates to mitigate any or all of this indirect shifting.

The average financial impact on each property class based on the combined "Real Dollar" property tax increase (from all tax authorities) is as follows:

Residential	2.23%
Non-Residential	1.48%
Combined Levy	1.98%

Current/Relevant Municipal Budget Considerations:

Improved revenue and expenditure forecasting from the previously approved 2013 Interim Operating Budget has resulted in an additional \$162,845 being available for capital. Provided Town Council approves a 3% property tax increase in both classes, the amount estimated as available for capital in 2013 will be improved to \$1,003,970 from \$834,045.

The primary reason for this welcome financial improvement is the recovery of \$26,265 from Clearview School Division representing a share of the cost to demolish the old pool, and an additional \$142,410 in new construction tax growth. Originally we estimated 17 million in new construction growth based on permit values and it was actually double when assessed at market values.

Council is challenged by weighing the importance of maintaining an appropriate amount of internally generated funds that are available for capital purposes both now and in future years, while controlling (in a fair and equitable manner) the amount of real tax dollars being generated from each property tax class: Residential verses Non-Residential.

Options:

1. Town Council may desire to change expenditure allocations for any purposes within the proposed 2013 Operating (Tax) Budget thereby changing the projected amount available for capital purposes.
2. Town Council may consider changing the percentage increase for either property tax class which will result in a corresponding enhancement or a reduction in the projected amount available for capital purposes. The impact of a 1% change in either class is as follows:

Residential Class 1% change equals:	+/- \$29,540
Non-Residential Class 1% change equals:	<u>+/- \$16,200</u>
Combined 1% change:	\$45,740

Recommendation

That the Town of Stettler Council adopt, per Section 242(1) of the *Municipal Government Act*, the 2013 Operating Budget for the Town of Stettler as presented with an average Municipal Property Tax increases as follows:

Residential	3.00%	(Combined Total Average Tax Increase 2.23%)
Non-residential	3.00%	(Combined Total Average Tax Increase 1.48%)

This level of 2013 municipal property taxation is expected to generate \$1,003,970 for capital purposes.
