

### KINETTES CLUB ANNUAL RUMMAGE SALE

The Kinettes Club Annual Rummage Sale will be held on September 25 & 26. Please bring and help unload your gently used items (excluding large furniture) to the Curling Rink from 5pm-8pm on the following dates:

*July 13*

*July 27*

*August 10*

*August 24*

*September 14*

**NOTE:** We will NOT be having a Town pickup day – Items **MUST** be dropped off on our scheduled days! We are not accepting donations of box TV's (flat screens only), cribs, car seats or luggage that is not current (must have wheels and an upright handle).

This project is awesome for the community as we are able to prevent a very large amount of items from going to the landfill by re-selling them. It allows for members of the community to purchase items they previously may not have been able to afford and it helps our Clubs raise money in order to give back to the Community through a variety of different ways.

If you would like to volunteer please contact Cheryl at 403-740-2898.

## Alberta Health Services

For generations, parents have been telling their children to “go outside and play.” It’s good advice: playing outside is a big part of healthy childhood development. Young kids, from toddlers to six years old, discover all kinds of new things while climbing, swinging, running or riding their bikes. Playing outside helps develop basic movement skills. Children need lots of play time. From ages one to four, children need at least three hours of activity over the course of the day. Children five and older need at least one hour of moderate to vigorous physical activity every day.

Some of that play can be structured and led by an adult so children can learn how to do a new skill or activity. “Structured activities are things such as going to the park and kicking a ball, throwing a ball, playing soccer or learning to swim or ride a bike.” It’s also important for children to have plenty of unstructured play, such as running around or using their imagination to invent brand new games and activities.

As a parent, you can watch, wait and listen as your child plays. Watch to see what your child is interested in and what he may be struggling with. Wait to see how you can offer support, but give him time to practise and see if he can figure it out on his own.
