

Stettler Wellness Network
Guiding Principles for Project Funding and Support

1. Provide a brief description of the project.

The Neighbourhood Block Party Program provides opportunities for neighbours to get together, meet each other, have fun and maybe work together on a common activity. Getting together with neighbours is not enjoyable, but it also enables a renewed attachment among people. As friendships grow, so do safe and caring neighbourhoods, overall it makes our community a more pleasant place to live.

2. What are the main goals of the project? How will you know if you have met the project goals?

To provide all the information and materials needed to organize a neighbourhood block party. This can be measured by public feedback and the number of people participating in the program.

3. Check the wellness priority (ies) that the project will address (refer to Appendix for definitions).

Check all that apply.

- Healthy Eating Environments and Food Security
- Community Inclusion
- Arts and Culture
- Physical Activity and Active Transportation
- Environmental Wellness
- Social Wellness

4. Who will benefit from the project? Check all that apply.

- A specific group _____
- A specific population (age group, demographic)
- Residents of the Town of Stettler
- Residents of the Town and County of Stettler
- Populations outside of Stettler _____

5. Who are the partners involved in this project and what is their role? Please list:

Currently, the group working on the project have background with:
The Town of Stettler, Heartland Beautification Committee, Alberta Health Services, Local Tourism, etc.

Other groups have also expressed interest in contributing, such as:
The Stettler Regional Board of Trade & Community Development, the County of Stettler, etc.

6. Has the built environment been addressed in the project? If yes, please explain:

(refer to Appendix for definition) Block parties get people out interacting with the built environment. There can also lead to community projects and lead to problem solving for maintenance, clearing sidewalks, or with playgrounds and parks.

7. Will the project address the Social Determinants of Health? If yes, please explain:

(refer to Appendix for definitions) Yes, a wide variety:
Social support networks, physical environments, healthy child development, sharing of culture, social environments and perhaps others.

8. How will you use Wellness Network funding to support the project? Please list budget items:

Item	Amount (\$)
Total	

9. Does the project have any other funding sources? Please list and provide details:

Since so many parties are interested in seeing this project go forward, each one has access to other sources of funding.

10. If you are looking for in-kind support, what non-financial contributions are you expecting from the Wellness Network? Mostly input to make this a useful, well-functioning program

11. Have you checked whether other organizations are offering a similar opportunity/event/program?

Yes or no. How do you know? Yes, and there are many outside our community (i.e. other municipalities). For our community, however, there are isolated get-togethers, but no organized, accessible program.

12. Are there any possible conflicts of interest? If yes, explain.

The only one I can think of is if the resulting program is only utilized by members of the committee creating it. (if some funding has gone into it)
