Stettler Elementary School

The Stettler Elementary School is pleased to announce their "Share a Smile" campaign. At school students are taught it is important to offer their best attitude in life, that everything is easier with a smile. To reinforce this concept students will be sent around our Town with stickers containing a smiling face. They will ask a person they meet if they would wear one sticker and take the remaining stickers to share with people they meet throughout the day. Our goal is to have everyone in Town wearing smiles on their clothes as well as smiles on their faces by the end of the day. Watch and learn from the kids on Wednesday, April 13.

Spring Plant Swap

The Heartland Beautification Committee is preparing for the 6th Annual Plant Swap. Once again this event will be held on the Saturday before Mother's Day on May 7, 2011 at West Stettler Park from 10:00 a.m. to 12:00 noon. If you have perennials that need dividing and you have run out of friends and family to give the extras to - this is the perfect place to dispose of them. Or, if you are a beginner gardener and are in need of perennials and some know-how this is where to come to get both. The idea is simple, if you have plants to share bring them (early in the morning if possible) and if you are in need of plants come and get them. We would ask that if you know the name of the plant you are bringing to please label it. We have found that this is also an opportunity for sharing not only plants but also gardening tips and ideas. If interested in gardening this is something you definitely need to check out. If you have any questions call Rob Spencer at (403)742-4142.

Rain Barrel Program

Rain barrels are available through the Stettler Public Library, Stettler Child Care, Heartland Youth Centre and the Stettler Regional Board of Trade and Community Development. The rain barrels will be sold for \$60 as part of the Rain Water Harvesting Program. They are available in black and come with an overflow valve and a mesh screen on the intake to prevent any critters from getting inside or the breeding of mosquitoes.

Benefits of this program include the following:

- Save money by cutting down your water bill
- Have a backup source of water during times of drought or between rain showers
- Source of naturally softened water (better for plants)
- Conserve water and keep water levels higher for wildlife
- Reduce burden on stormwater and water treatment infrastructure
- Support local non-profit organizations

Please take advantage of this opportunity! Of course the Town would encourage the purchase of rain barrels at any business as well.
