2019 Interim Operating Budget

Water, Sewer, Garbage & Recycling Rates

Starting January 1, 2019 rates for in-Town water consumption will rise by \$.01 cents per m³ to \$2.80, sewer rates will increase by \$.25 to \$22.50 per month, garbage rates will be increasing by \$.25 to \$23.50 per month and recycling rates will be \$6.50 per month.

The financial impact on a household consuming an average of 17m³ per month of water will be an additional \$11.04 per year in 2019. These utility rate increases are necessary to offset related costs associated with “User Pay” municipal utilities included in the Town’s 2019 Interim Operating Budget projections. The Town of Stettler does not use property tax dollars to support municipal utility operations.

In 2019 the Stettler Water Treatment Plant will regionally supply potable water to the Shirley McClellan Regional Water Services Commission operating an easterly line to Castor, Coronation, Consort, Big Valley, Erskine, Donalda and Summer Village of White Sands.

The 2019 Interim Operating Budget reflects Council’s intent to be fiscally responsible and accountable to its’ residents while sustaining the current high level of municipal utilities, and continuing to renew aging capital infrastructure. Town Council also considers it appropriate to put aside funds to support larger capital expenditures anticipated in the near future; and to contribute significant funds towards community programs and partnerships to maintain existing levels of services expected by our citizens.
