COVID Impact - 2021

COVID continues to take an unprecedented toll on our economy and the uncertainty into the Town of Stettler finances. The on again / off again closures of our facilities and cancellation of recreational programming, has resulted in very uncertain potential revenue losses. Our immediate priority is the health of our residents but we must also start looking to the future and planning for recovery. We will continue to act in the best interests of our taxpayers while ensuring the Town of Stettler remains the true "Heart of Alberta." This budget assumes that programming revenue will not be back to pre-COVID levels, some revenue losses will continue through 2021 and will start recovery in July/August. As such no additional revenue adjustments due to COVID have been made from the 2021 interim budget in December 2020. Nontax revenue impairment is real but not expected to be permanent given the nature of the services that the Town provides.

But What does it mean.....

| 2021 Budget (May 2021) | \$743,463 | \$94,614 | 1.59% |

Current/Relevant Municipal Budget Considerations:

Updated revenue and expenditure forecasting from the previously approved 2021 Interim Operating Budget has resulted in an **increase of \$94,614** being available for the 2021 Capital Budget. Provided Town Council approves a **0%** property tax increase in both classes, the amount estimated as available for capital (from operating) in 2021 will **increase** to **\$743,463** from **\$648,849**, an increase of \$94,614 (\$81,295 nontax adjustments to 2021 Interim Budget / \$13,319 from revised tax estimates at 0%)

- \$150 COVID relief contribution to local businesses
 - Business Licenses/Tax maintained at \$150 per year / \$350 Non-Resident Fee;
 - Continue enhance RCMP funding to support local initiatives and peak periods.
 - Council continues to financially support the recruitment/relocation process for healthcare workers to our community, as well as strategic efforts to further along provincially planned upgrades to the Stettler Health Care/Hospital Facilities which are progressing.
 - Stettler residents and visitors enjoy a high level of services and community facilities while local property taxes have consistently remained below the provincial average for similar sized municipalities (per Alberta Municipal Affairs most recent Financial Indicator Graphs)
 - High quality water at affordable rates (\$1.4420 m³ & \$1.3960 m³) to Regional partners.
 - High quality municipal utility services at affordable rates for our local customers:
 - ✓ Flat Water Rate remains at \$10 per month
 - ✓ **Water Rate** no increase (\$2.82)
 - ✓ **Sewer Rate** no increase (\$22.75)
 - ✓ **Garbage Rate** no increase (\$23.75)
 - ✓ **Recycling Rate** no change (\$6.50)
- Total - \$63.00 per month + \$2.82 water consumption (\$63.00 per month in 2020)

Fundamentals of the Property Assessment System

Property assessment is the process of assigning a dollar value to a property for the purpose of taxation. The Municipal Government Act defines property as a parcel of land, an improvement, or a parcel of land and an improvement to the land. An improvement is defined as a structure or items attached to a structure that would be transferred by a sale of the structure. Examples of an improvement may include a building, driveway, landscaping, manufactured home or machinery and equipment.

How is property assessed?

Depending on the type of property, assessments are determined using either a market value based standard or a regulated procedure based standard.

Market Value Standard

The majority of properties in Alberta are assessed using the market value standard which estimates the value a property would likely sell for on the open real estate market. The method to calculate market value can be performed using one of three approaches:

- The sales comparison approach involves the analysis of recent sale prices of similar properties to determine the most probable price that a property would sell for on the open market between a willing buyer and seller. It is best suited to types of property that sell frequently (e.g. residential).
- The income approach may be used when there is insufficient sales data available and the property is income producing. This approach involves the capitalization of the expected future income to be generated by the property to determine its value. It is often used to assess property such as retail buildings, hotels, apartment buildings or rental office buildings.
- The cost approach is used when there is a limited amount of sales or rental information available or the property is a special use property. The cost approach is based on the principle that a buyer would not pay any more to purchase a property than it would cost to buy similar vacant land and build the same buildings or structures. It requires the assessor to calculate the market value of the land using the sales comparison approach and then add the cost to construct the improvements. The last step requires the assessor to subtract an amount that reflects the existing depreciation of the current buildings and structures.

What are the types and classes of property?

All properties are assigned to an assessment class for the purposes of applying a tax rate. The Municipal Government Act provides for four classes of property:

Class 1 – residential

Class 2 – non-residential

Class 3 – farmland

Class 4 – machinery and equipment

Class 1 - Residential property consists of land and improvements where the primary use of the property is for housing. It is assessed by the municipal assessor using a market value standard.

Class 2 – Non-residential property

Non-residential property generally consists of land and improvements where the primary use of the property is for business purposes. This includes properties such as commercial, retail and industrial or linear properties. Within the non-residential property class, there is a sub-category called designated industrial property. Designated industrial property is assessed by the provincial assessor and other non-residential property is assessed by the municipal assessor.

Designated industrial property is a new classification that was created in 2017. It is assessed using the regulated procedure standard and includes the following types of property:

- facilities regulated by the Alberta Energy Regulator, the Canadian Energy Regulator, or Alberta Utilities Commission;
- linear property (oil and gas wells and pipelines, railways, telecommunications and electric power systems) assessed by the province;
- property designated as a 'major plant' by the Alberta Machinery and Equipment Assessment Minister's Guidelines (for example, large refineries, upgraders, pulp and paper mills); and
- land and improvements associated with property regulated by the Alberta Energy Regulator, Alberta Utilities Commission or Canadian Energy Regulator and major plants.

Class 3 – Farmland

Class 4 – Machinery and equipment

Machinery and equipment (M&E) property is assessed under the regulated procedure based standard. M&E are the components or equipment within commercial and industrial properties where manufacturing or processing occurs. M&E property includes objects such as storage tanks, separators, compressors, chemical injectors, metering equipment, ovens, mixers, grinders and other equipment.

- The Town of Stettler does not tax for M&E Property (Bylaw 1752.96 - \$3,108,490 assessment (exempt)- \$27,993 potential tax if not exempt)

Assessment sub-classes

A municipality may create sub-classes within certain assessment classes to further categorize properties and/or to assign different tax rates within a class. A council may, by bylaw:

- divide class 1 (residential) into sub-classes on any basis it considers appropriate. Common examples include residential and vacant residential; and
- divide class 2 (non-residential) into three sub-classes as follows:
 - vacant non-residential property;
 - small business property (fewer than 50 full-time employees); and
 - other non-residential property.

Legislative Requirements

The 2021 Operating Budget and Tax Rate Bylaw #2144.21 have been prepared based on the 3-year 2021 – 2023 Interim Operating Budget approved December 15th, 2020, the 2021 Capital Budget approved on February 2nd, 2021 as well as several subsequent individual budget adjustments that are considered necessary to improve forecasting accuracy.

Section 353 of the *Municipal Government Act* authorizes a Council to impose a tax in respect of property in the municipality to raise revenue to be used toward the payment of the expenditures set out in the budget of the municipality. Administration recommends that the 2021 Operating Budget be adopted by Town Council prior to the 2021 Tax Rate Bylaw being given all required readings.

Assessment Comparison

Overall Assessment values for 2021 assessment purposes increased by (\$2,570,220) (0.32%) over 2020 including \$6,800,810 (0.86%) due to new construction/linear growth and Property Assessment decreased in market value of -0.53% (\$-4,230,590). The Annexation Agreement between the Town of Stettler and the County of Stettler expired on December 31, 2019 therefore the assessment from the annexed properties have been included in the assessment totals presented.

Assessment Valuation and the Financial Impact on Municipal Property Taxation

For 2021 property assessment/tax calculation purposes, pre-existing residential properties depreciated by an average of -0.73% while pre-existing non-residential properties also depreciated slightly by -0.07%.

In considering the fair, equitable and transparent treatment of properties in both tax classes, a base split municipal tax rate is calculated and then utilized to ensure that the cumulative amount of municipal taxes collected from pre-existing properties in each property tax class is the same amount as was collected in the previous year. Following this, Council's desired and approved tax rate change(s) for each class are independently applied and a new split tax rate is calculated for each class.

In this way Town Council can achieve a desired and relatively accurate outcome from each property tax class without any municipal tax burden shifting between classes due to assessment valuation variations. There is tax shifting occurring within each tax class.

2021 Municipal Property Taxation

The 2021 Interim Operating Budget previously authorized a **0%** tax increase for municipal purposes from both tax classes with the school and housing authority estimated tax impacts being extra. COVID-19 continues to take an unprecedented toll on our economy, business sector and on the Town of Stettler finances. In light of our current economic conditions due the uncertainty of COVID-19, Administration is proposing (recommending) a **0%** increase to the Residential and Non-Residential municipal tax levy.

A Summary of 2021 Property Taxation Options has been prepared to quantify some alternative cumulative financial/budgetary impacts at various reasonable taxation increases over 2020 levels.

Administration has presented the 2021 Operating (Tax) Budget and Tax Rate Bylaw based on the following assumptions as authorized during the 2021 Interim Budget process and COVID-19 uncertainty:

Average 0% municipal tax increase to pre-existing residential properties
Average 0% municipal tax increase to pre-existing non-residential properties.

With a 0% 2021 property tax increase, as presented, **no additional revenue** will be generated for municipal purposes from pre-existing 2020 taxpayers, and an additional \$56,029 will be generated for municipal purposes from new construction growth.

2021 Combined Property Taxation

Municipal taxes are the primary component (roughly 70%) of the annual property tax notice. However, the other substantial component is the Education Property Tax Requisition (roughly 25%).

A rough breakdown is as follow:

| | | |
|---------------|---|----------------------------------|
| Municipal | - | 70% of total property tax notice |
| ASFF (school) | - | 25% of total property tax notice |
| Seniors | - | 5% of property tax notice |

Education tax has a significant impact on the overall amount of property taxes collected from both tax classes. The average percentage changes necessary from pre-existing 2020 tax classes are as follows; based on the actual 2020 Education Property Tax Requisition:

| | <u>Residential</u> | <u>Non-Residential</u> |
|-----------|--------------------|------------------------|
| Municipal | 0% | 0% |
| Education | 3.80% | 2.69% |

Due to the Provincial Election on April 16, 2019, the Provincial ASFF payment was not finalized by the Province until October 2019. For the 2019 Budget, Administration had estimated the ASFF payment to increase by 4% based on prior year's summaries. ($\$2,322,377 / 2,415,272 = \$92,895 / 4\%$). The final ASFF Requisition was determined by the Province in October 2019 to be \$2,314,984 leaving an over levy collection of \$100,162 to be applied in 2020.

Due to the financial uncertainty of COVID-19, the Province of Alberta has maintained the 2021 ASFF Requisition at existing levels (2019 - \$2,314,984 / 2020 - \$2,326,436 / 2021 - \$2,315,601. This decrease of \$10,835 from 2020 to 2021 is due to a slight decrease of \$3,549,915 in the Town of Stettler Equalized Assessment from 2020 to 2021 used to calculate the ASFF Requisition. ($\$794,196,072 - \$797,745,987$)

The impact on each property class is broken down as follows (\$2,315,601 - \$2,222,335 = **\$93,266**):

Residential

The entire Residential property class for the 2021 requisition for school purposes will increase by **\$54,130** with previously existing properties in 2020 increasing by \$51,409 representing a 3.80% increase and the remaining \$2,721 will be generated from new residential construction growth.

Non-Residential

The entire Non-residential property class for the 2021 requisition for school purposes will increase by **\$39,136** with previously existing properties in 2020 increasing by \$23,407 representing a 2.69% increase and the remaining \$15,729 will be generated from new residential construction growth.

Combined property Tax Impact

A multi-year comparison of the average financial impact on each "Previously existing" property tax class based on the combined "Real Dollar" property tax increase (from all tax authorities) is as follows:

Options:

1. Town Council may desire to change expenditure allocations for any purposes within the proposed 2021 Operating (Tax) Budget thereby changing the projected amount available for capital purposes.
2. Town Council may consider changing the percentage increase / decrease for either property tax class which will result in a corresponding enhancement or a reduction in the projected amount available for capital purposes. The impact of a 1% change in either class is as follows:

| | |
|---|------------------------------|
| Residential Class 1% change equals: | +/- \$37,221 |
| Non-Residential Class 1% change equals: | +/- \$22,147 |
| Combined 1% change: | +/- \$59,368 (½% - \$29,684) |

Director of Operations

Re: Recommendation of Award of Concrete Crushing Tender

Background:

2021 Capital Budget includes \$150,000 to crush recycled concrete and asphalt into usable aggregate.

Summary of Tenders Received on May 12, 2021:

- | | |
|-----------------------------|--------------|
| • Park Paving Ltd. | \$89,450.00 |
| • McKnight Enterprises Ltd. | \$143,000.00 |

Tenders do not include gst or contingency.

The pricing from Park Paving is favorable and administration is recommending crushing concrete and asphalt to the budgeted amount of \$150,000.

Recommendation:

Administration respectfully recommends that Town of Stettler Council award the Concrete Crushing tender to Park Paving Ltd. in the amount of \$89,450.00, excluding GST, and approves expenditures up to \$150,000 as funded in the 2021 Capital Budget.

Request For Consolidation

Agenda Item:

Issue:

Subdivision Application: #2021-02

Legal: Lot 5, Block 4, Plan 1223548 and Lot 7, Block 4, Plan 1823272

Civic: 4020-48 Street and 4019-50 Street

Applicant: Gayle Cassidy

Proposed Subdivision: a two (2) parcel consolidation (Lot 5, Block 4, Plan 1223548 and Lot 7, Block 4, Plan 1823272)

Recommendation:

That the application for a two (2) parcel consolidation as shown on the Tentative Plan has been evaluated in terms of Section 654 of the Municipal Government Act and Section 7 of the Subdivision and Development Regulations and having considered adjacent landowner(s) submissions, it is recommended that the application be approved as per Tentative Plan for the following reasons:

1. That the application is consistent with Section 7 of the Subdivision and Development Regulations;
2. The application is consistent with the policies of the Municipal Development Plan; and
3. The application is consistent with the Land Use Bylaw 2060-15.

Further, in accordance with Sections 654 and 655 of the Municipal Government Act, the application is approved subject to the following conditions:

1. Consolidation to be effected by a Plan of Survey, pursuant to Section 657 of the Municipal Government Act.
2. All outstanding Property Taxes to be paid to the Town of Stettler as per Section 654 (1) (d) of the Municipal Government Act.

Notes:

Any existing instruments on the land title in favor of the users of lease roads, pipelines or other oil and gas facilities or other infrastructure shall be carried forward to the land title of the proposed parcel.

General:

The applicant is proposing to consolidate Lot 5, Block 4, Plan 1223548 and Lot 7, Block 4, Plan 1823272. 4020-48 Street (Lot 5, Block 4, Plan 1223548) is currently vacant and accessed through 4019-50 Street (Lot 7, Block 4, Plan 1823272).

In 2012 the property was subdivided to accommodate 3 residential parcels and the highway commercial parcel. Development has taken place on the residential properties with the original house remaining on 4019-50 Street.

While the applicant has applied for a consolidation of the 2 parcels, 4019-50 street and 4020 – 48 Street the applicant has also applied to re-zone the property

From C2: Commercial Highway to DC2: Direct Control Residential 2.

The consolidation and re-zoning applications are being processed concurrently and following the legislated circulation the re-zoning is before council for a Public Hearing and consideration for 2nd and 3rd Reading today May 18, 2021 as well.

Legislation and Policy:

Staff has assessed this application against the provisions outlined in the Town of Stettler Land Use Bylaw, South East area Structure Plan, Inter municipal Development Plan, and Municipal Development Plan.

Technical Review:

External Agencies:

Apex Utilities – No Objections

Telus Communications – No Objections

Atco Electric – No Objections

Alberta Transportation – No Objection as the parcel will be accessed through the local road of 50 Street.

Technical Considerations (as per application):

Topography – Flat/Rolling

Soil Characteristics – Sandy/Clay

Accessibility to Road – 50 Street (Cemetery Road)

Water supply, sewage and solid waste disposal – Municipally serviced.

The use of the land in the vicinity of the site – Residential and Public Use

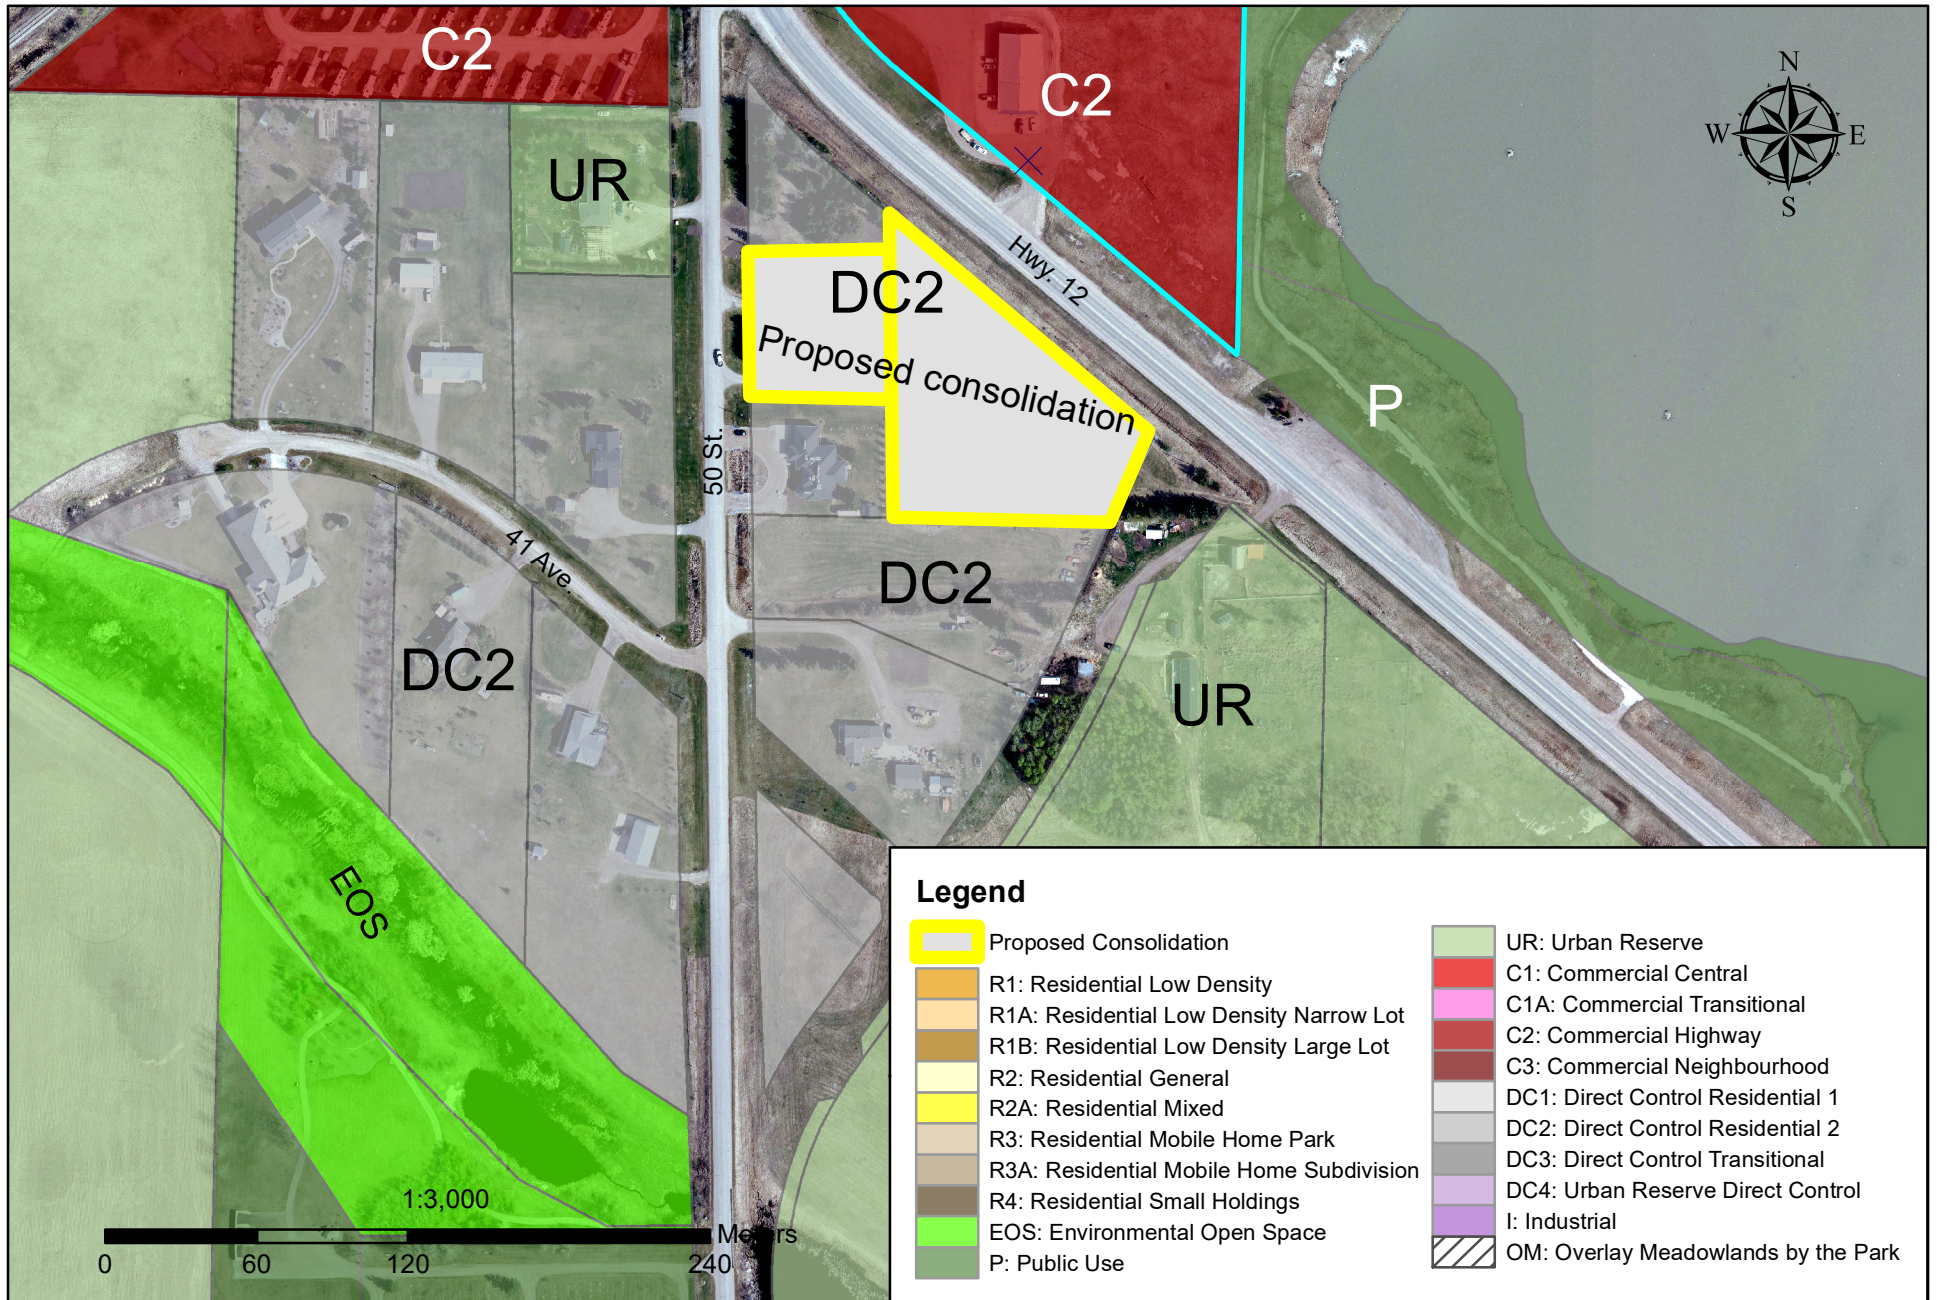

Alternatives:

Defeat the application, stating reasons

Re: Physical Supply – Electricity (January 1, 2024 to December 31, 2026)

Recommendation

That the Town of Stettler Council ratify Administration entering into an Electricity Physical Supply Contract with Capital Power for the three (3) year period 2024 – 2026 (January 1, 2024 – December 31, 2026); at a base rate of \$52.85 MWh + Administration fee of \$0.25 MWh for a total of \$53.10 MWh, load following basis with +/- 25% threshold variance price protection.

Background Information

Administration has been working with Energy Associations International (EAI) for the physical supply of electricity to the Town of Stettler for 2024 - 2026 respectively. Our current agreement with Capital Power expires December 31, 2023 at a cost of \$43.92 / MWh, load following +/-20%

FYI - Current wholesale market pricing for same term ~ \$64.00/MWh

Market Conditions

Administration and EAI considered many current and long-term market conditions:

- COVID-19 impact on energy markets
- Early coal-to-gas conversion
- Tightening reserve margins (<30%)
- Emission penalty uncertainty
- Large direct-connect industrials leaving system
- AESO forecast minimum 22% increase in Transmission Rates from 2019-2027
- Declining reserve margins (despite growing non-dispatchable renewables)
 - Planned/un-planned outages will impact spot and forward electricity prices
- Conversion from coal-fired generation to natural gas at accelerated timelines
 - New baseline for electricity @ \$55.00/MWh – most efficient gas plant
- Production costs exposed to volatility/ increases in North American natural gas prices

Administration agreed with EAI that it was a good time in the market to procure electric supply for 2024 - 2026. This term will offer price and budget stability to serve the Town of Stettler's load profile requirements at a unit price lower than the current wholesale cost of coal fired electricity generation in Alberta which is currently \$58/MWh, rising to as much \$80/MWh.

With that in mind, Administration authorized the "Town of Stettler Electricity RFP"

- Release of RFP – August 2020
- Market Date - Friday, May 14, 2021
- Firm Bid Round (Time Sensitive) - Friday, May 14, 2021 @ 10:15am (3 companies that submitted pricing to RFP were invited to the Firm Bid Round)
- 3-year cost evaluation ranking
 1. Capital Power
 2. Enmax
 3. Direct Energy

MASTER ELECTRICITY SERVICES AGREEMENT ENERGY PLAN

This Energy Plan is entered into between Capital Power and the Customer and is attached to form part of the Master Electricity Services Agreement made effective as of the date of Capital Power's countersignature. Capitalized terms used herein are defined in the Agreement unless otherwise defined herein. In the event of a conflict between this Energy Plan and any other part of this Agreement, this Energy Plan will prevail.

More than one Energy Plan may be in effect at one time. Each Energy Plan will be numbered consecutively, and each amendment to an existing Energy Plan will also be numbered consecutively. Details of this Energy Plan are as follows:

1. Energy Plan No.: 2 of 2
2. Amendment to existing Energy Plan? No
3. If yes, this is Amendment:
4. Payment Date: 30 days after the date of the invoice
5. Product Selection:

For the purposes of this Energy Plan, the Customer has chosen the following product (select one):

| | | | |
|--------------------------|-------------------|-------------------------------------|--------------------------|
| <input type="checkbox"/> | Hourly Index | <input type="checkbox"/> | Load Following (Hourly) |
| <input type="checkbox"/> | Structured Blocks | <input checked="" type="checkbox"/> | Load Following (Yearly) |
| | | <input type="checkbox"/> | Load Following (Monthly) |

6. Site List:

This Energy Plan is applicable to the following Customer Sites: Please see attached site list.

7. Product Description, Terms and Conditions:

See following pages.

Load Following (Yearly)

| | |
|--|--|
| Term | Start Date: 1/1/2024 End Date: 12/31/2026 |
| Retail Charge (\$/MWh) | \$0.25 / MWh |
| Management Fee (\$/MWh) | \$3.00 / MWh |
| Site Change Fee (\$/Site) | \$0.00 / Site |
| Upper Consumption Threshold (UCT) +25 % of Contract Quantity | |
| Lower Consumption Threshold (LCT) -25 % of Aggregate Quantity | |

| Contract Year | Contract Price (\$/MWh) | Contract Quantity (MWh) | LCT (MWh) | UCT (MWh) |
|----------------------|--------------------------------|--------------------------------|------------------|------------------|
| 2024 | \$52.85 | 5,581 | 4,186 | 6,976 |
| 2025 | \$52.85 | 5,581 | 4,186 | 6,976 |
| 2026 | \$52.85 | 5,581 | 4,186 | 6,976 |

Capital Power will arrange for the supply and Customer will purchase electricity for the Site(s) specified above for the Term. Fees payable under this product option are comprised of the following:

- (I) **Actual Consumption:** For each Load Profile Hour during the Term (being an hour during the Term in which the Customer has agreed to purchase a Contract Quantity at a fixed Contract Price, as set out above), the Customer will pay to Capital Power an amount equal to the product obtained by multiplying (a) the Contract Price, and (b) the Actual Consumption for that hour.
- (II) **Annual Actual Consumption in excess of the Upper Consumption Threshold:** If the Actual Consumption for any year during the Term exceeds the Upper Consumption Threshold set out above, then in addition to the amounts payable under (I), there will be an adjustment between the Customer and Capital Power equal to the product obtained by multiplying (a) the amount by which the Actual Consumption in that year exceeds the Upper Consumption Threshold, and (b) the difference between the Weighted Average Alberta Pool Price and the Contract Price for that year. If that calculation yields a positive amount, the Customer will pay Capital Power that amount in addition to the amount payable under (I). If that calculation yields a negative amount, Capital Power will credit that amount against the amount payable by Customer under (I) above.
- (III) **Annual Actual Consumption is less than the Lower Consumption Threshold:** If the Actual Consumption for any year during the Term is less than the Lower Consumption Threshold set out above, then in addition to the amounts payable under (I), there will be an adjustment between the Customer and Capital Power equal to the product obtained by multiplying (a) the amount by which the Lower Consumption Threshold exceeds the aggregate Actual Consumption for that year, and (b) the difference between Contract Price and the Weighted Average Alberta Pool Price for that year. If that calculation yields a positive amount, the Customer will pay Capital Power that amount in addition to the amount payable under (I). If that calculation yields a negative amount, Capital Power will credit that amount against the amount payable by Customer under (I).
- (IV) **Retail Charge:** For each hour during the term, the Customer will also pay to Capital Power an amount equal to the Retail Charge multiplied by the greater of (a) the Contract Quantity, and (b) the Actual Consumption for that hour.
- (V) **Management Fee:** For each hour during the Term, the Customer will also pay to Capital Power an amount equal to the Management Fee multiplied by the greater of (a) the Contract Quantity, and (b) the Actual Consumption for that hour; or (ii) the Customer will also pay to Capital Power an amount equal to the Management Fee on a dollar per site charge, as identified in the Energy Plan.
- (VI) In addition, Customer is responsible for Other Charges, Taxes, and all other amounts specified in Agreement.

[Execution page follows]

Agreement 10741

Execution and Delivery

This Energy Plan must be returned by the Customer to Capital Power on or before the date and time first indicated above and is otherwise subject to change. This Energy Plan is binding and effective on the date it is executed by both Capital Power. Upon execution by the Customer and Capital Power, this Energy Plan will attach to and form part of the Agreement.

IN WITNESS WHEREOF the parties hereto have executed this Energy Plan as of the 14th day of May, 2021.

Staff and Department Head

DIRECTOR OF PARKS & LEISURE SERVICES / PARKS & LEISURE SERVICES FOREMAN – ALLAN KING

Report to be submitted at a later date.

WATER TREATMENT PLANT SUPERVISOR – CHRIS SAUNDERS

1. Stewart Homes was contracted to repair the men's washroom ceiling as well as installing a new larger ceiling opening in the women's washroom for safer access to the air handling unit. A work platform was also constructed above the women's washroom so that routine maintenance on the air handling unit can be done safely.
2. The 6 monthly maintenance on the Ammonia Monochloramine analyzer was performed by the HACH technician. The analyzer is not getting good automatic calibrations after the maintenance was carried out so the technician will return to address this problem.
3. More preparations are underway to install the shade cloth on the reservoir later this spring.
4. The potassium permanganate system is in service and being fed at a low dosage at this time into the reservoir to help with odor and taste that can arise with spring runoff.

The potassium permanganate will also hopefully help reduce algae growth as well as the water warms.

5. Shane Menard was brought in to retrieve data points on our computers that were lost from the system during the last wind and snow storm that caused power outages.
6. The waste water lift pumps were raised up and the fluids were changed out this year. Both pumps were put back in place and in service. There is a small leak in the discharge line coupling that will be addressed at the first opportunity in May.
7. The colorimeter failed on the 4099 CL17 chlorine analyzer. The plant operators ran the sample line to another analyzer which was less critical until the technician was able to come to the plant to repair the analyzer.
8. Routine monthly maintenance carried out by operators.

WATER – GRANT MCQUAY

Application for Rezoning – Bylaw 2139-21
Legal: Lot 2, Block 1, Plan 1923086
Civic: 4501 – 57 Street
Applicant: Tracey Peters
Proposed rezoning from P: Public Use to R2: Residential General

Recommendation:

That Council proceed with 3rd Reading to Land Use Bylaw Amendment 2139-21 request to rezone Lot 2, Block 1, Plan 1923086 from P: Public Use to R2: Residential General.

General:

The applicant is proposing to rezone the above-mentioned parcel from P: Public Use to R2: Residential General. The applicant has requested the rezoning to accommodate the development of a 17 +/- lot residential subdivision including multi family housing (duplex) as well as single family housing.

The rezoning and subdivision applications have been accepted by the Town and are being processed concurrently. The rezoning application is before council today for 3rd Reading while the subdivision was approved by Council on April 20, 2021.

The proposed rezoning was circulated to the adjacent landowners and was advertised in the Stettler Independent on March 25, 2021 and April 1, 2021. A public hearing was held on April 6, 2021 after which the rezoning bylaw received 2nd Reading.

The proposed rezoning is in accordance with the Town of Stettler Municipal Development Plan (Bylaw 2041-13) which was adopted in 2013 and identifies this land as future residential (see attached map).

Administration respectfully recommends that Council proceed to 3rd and final reading of the rezoning bylaw 2139-21 now that the applicant has entered into a Development Agreement with Town of Stettler as a condition of the subdivision approval.

Background:

The property in question is currently a P: Public Use parcel that operates as the Rotary Campground. The change in use to R2: Residential General is a natural fit in the area as there is both R1 and R2 districts adjacent to the proposed rezoning.

Legislation and Policy:

Staff has assessed this application against the provisions outlined in the Town of Stettler Land Use Bylaw and the Municipal Development Plan.

Land Use Bylaw Implications:**Land Use District Purpose:****Section 89 P: Public Use District**

73.1 Purpose:

To provide an area for development of public land which are compatible with the adjacent surroundings.

Section 76: R2 – Residential General District

76.1 Purpose:

To provide an area for variety of dwelling types which are compatible with residential area.

Agenda Item:

Issue:

Application for Rezoning 2140-21
Legal: Lot 5, Block 4, Plan 1223548
Civic: 4020-48 Street
Applicant: Gayle Cassidy
Proposed Rezoning from C2: Highway Commercial to DC2: Direct Control Residential 2

Recommendation:

That Council gives 2nd and 3rd reading to Bylaw 2140-21 Rezoning Lot 5, Block 4, Plan 1223548 from C2: Highway Commercial to DC2: Direct Control Residential 2.

IMPLICATIONS OF RECOMMENDATION

General:

The applicant is proposing to rezone Lot 5, Block 4, Plan 1223548 from Highway Commercial to Direct Control Residential (see attached). The property is currently vacant and accessed through 4019-50 Street. The applicant is proposing to re-zone the property to DC2 and consolidate the parcel with 4019-50 Street.

The proposed rezoning was advertised in the Stettler Independent on April 29, 2021 and May 6, 2021. The Town of Stettler has received no written submissions regarding the proposed Bylaw.

In 2012 the property was subdivided to accommodate 3 residential parcels and the highway commercial parcel. Development has taken place on the residential properties with the original house remaining on 4019-50 Street. The applicant has applied for a consolidation of the 2 parcels, 4019-50 street and 4020 – 48 Street (see attached). The consolidation application is being processed concurrently and following the legislated circulation the consolidation is before council for consideration today May 18, 2021 as well.

BACKGROUND

Legislation and Policy:

Staff has assessed this application against the provisions outlined in the Town of Stettler Land Use Bylaw, South East area Structure Plan, Inter municipal Development Plan, and Municipal Development Plan.

Development Review

The proposed rezoning from C2 to DC2 is compatible with the residential uses across 50 Street and to the South of the property. The opportunity to subdivided and rezone in the future still exists however at this time the applicant is proposing the rezoning and consolidation to accommodate the use of both parcels as one residential property.

The proposed rezoning does not conform to the existing South East Area Structure Plan, this is a common occurrence in this area with other residential properties to the south, and across 50 Street to the west. The SE ASP is to be reviewed between the Town and County in 2021 and it should be noted that the existing SE ASP is outdated in nature (1989) and does not accurately reflect the development within the area.

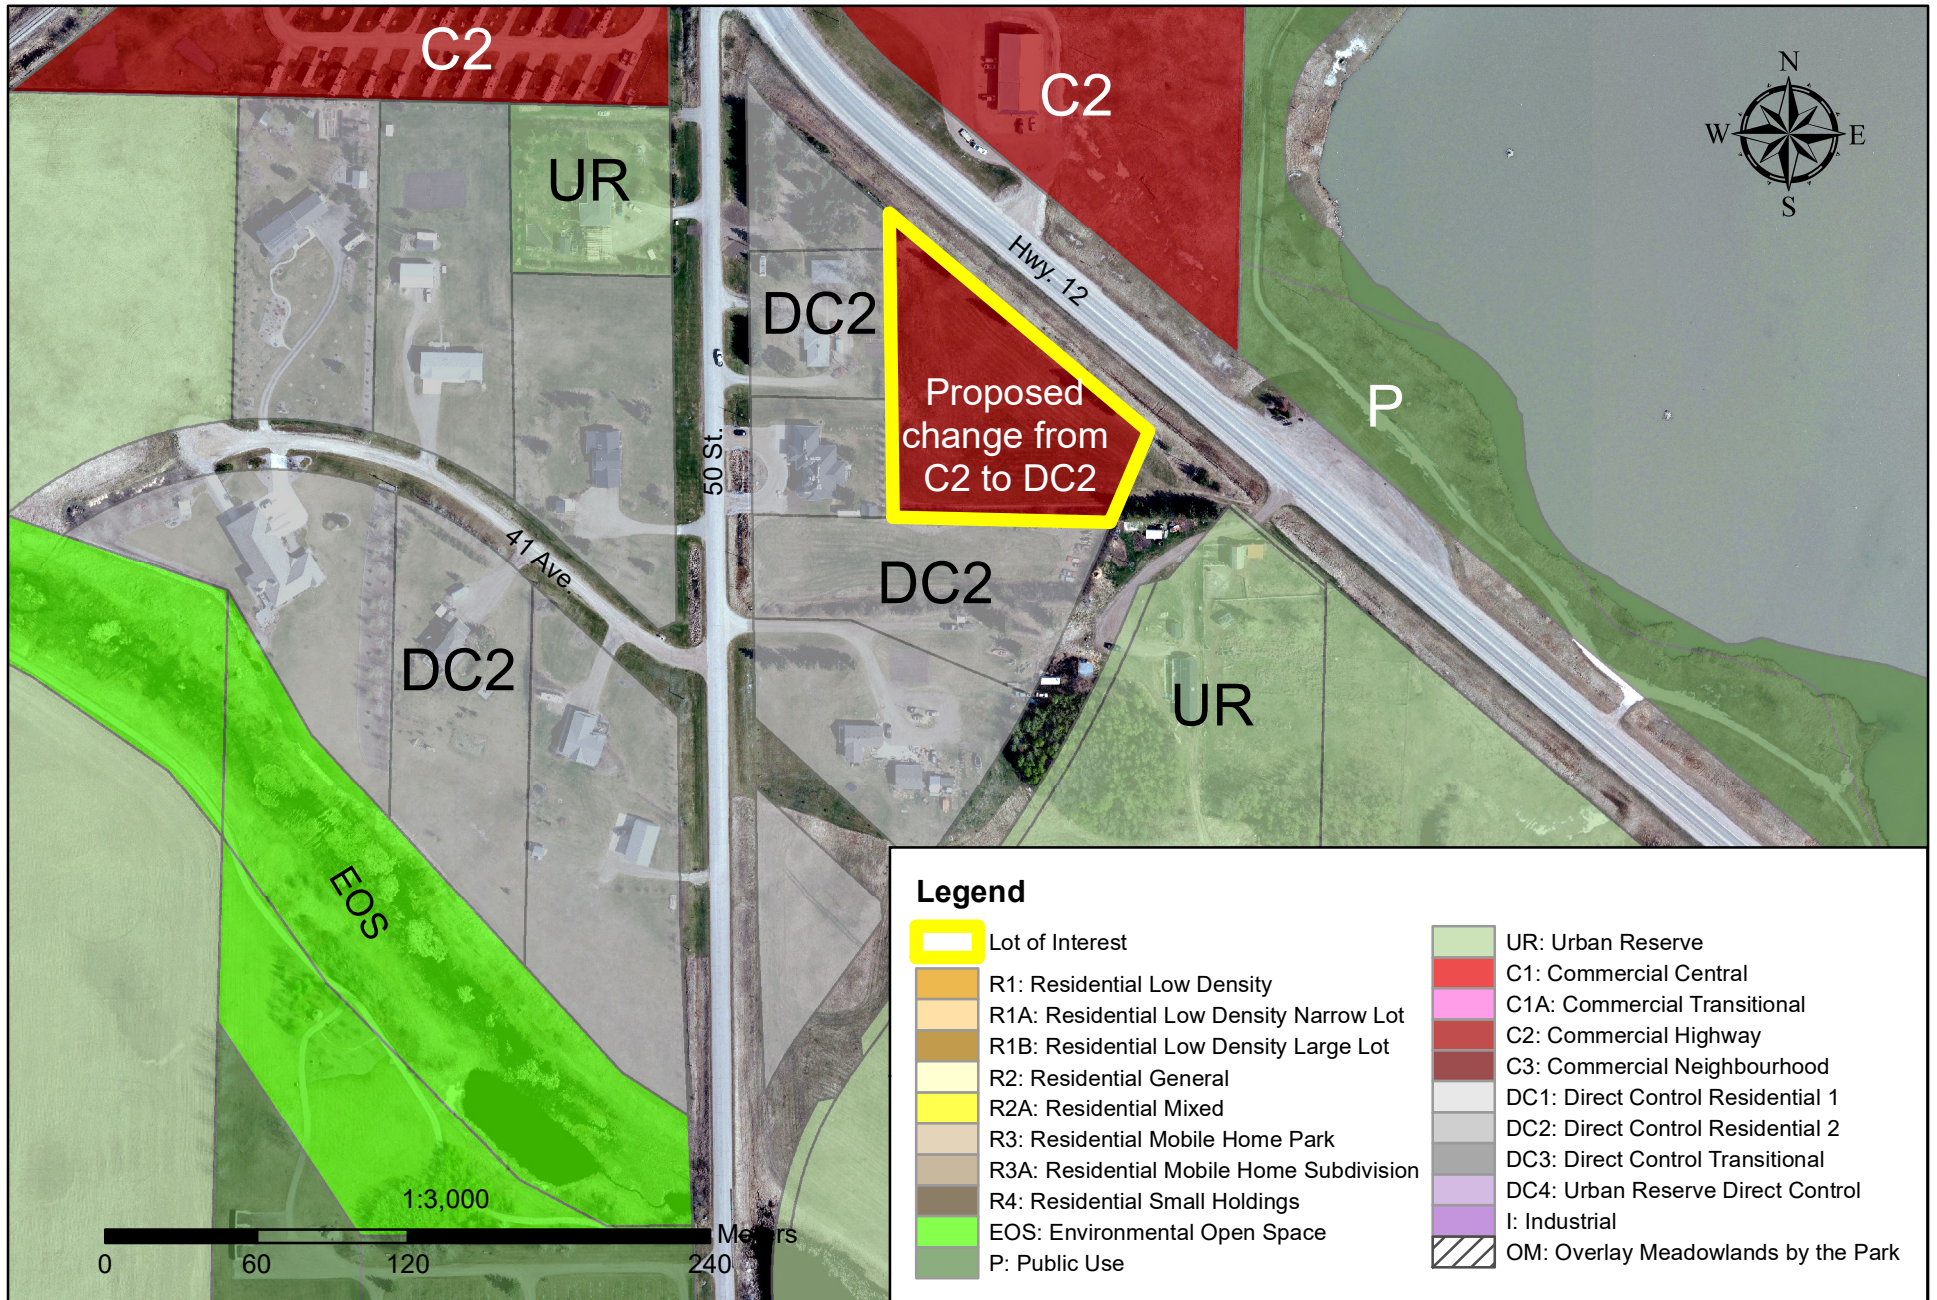

Alternatives:

- Defeat this application based on the condition that it does not conform to the South East Area Structure Plan.

Area Structure Plan Amendment: Bylaw 2142-21

Amending: West Stettler – Highway 12 South 2001-10

Legal Land Description: All parcels within SE 1-39-20-W4.

Applicant: Nautical Lands Group c/o Stantec

Recommendation:

That Council consider the application and give 1st Reading to Area Structure Plan Amendment 2142-21 as presented.

General:

The applicant has requested the amendment to accommodate the development of a 432 unit seniors residential development "Wellings of Stettler" that will include multi-unit row housing developed in 3 phases with phase one consisting of a Group Use Facility (clubhouse) and 154 dwelling units.

The applicant is currently preparing the application for subdivision, at which time the conditions for development including municipal improvements (roads, services, storm and etc.) will be addressed. The applicant will be required to enter into a Development Agreement with the Town of Stettler to ensure that all improvements are completed and approved by the Town of Stettler for final acceptance.

The Land Use Bylaw and Area Structure Plan Amendment applications have been accepted by the Town and are being processed concurrently with both applications before council for consideration of 1st Reading. Following 1st Reading a public hearing will be set for the Land Use Bylaw and Area Structure Plan Amendment on June 15, 2021. Administration respectfully recommends that Council not proceed to 3rd and final reading of the Land Use Bylaw Amendment Bylaw 2143-21 until such time that the applicant has entered into a Development Agreement with Town of Stettler as a condition of the subdivision approval.

1.0 Introduction

1.1 Purpose

This Area Structure Plan provides a framework for the long-term subdivision and development of the lands referred to as the West Stettler – Highway 12 South Area Structure Plan within the SE 1-39-20-W4.

The Plan Area is located within lands ~~recently~~ annexed by the Town of Stettler in 2010. The site's proximity to Highway 12 and the West Stettler Park System gives it considerable potential for short term mixed business and long term ~~estate~~ residential expansion.

Recent interest for highway commercial and industrial land in the Stettler area suggests that these industries are the highest and best use of for the lands adjacent to Highway 12. A primary purpose of this Area Structure Plan is to determine an appropriate location and policies for such uses, along with future ~~estate~~ residential uses, within the Plan Area.

1.2 Regional Context

The West Stettler – Highway 12 South Area Structure Plan in the regional context is shown on **Figure 1**. Specifically, the Plan Area is contained within a quarter section of land bounded by Highway 12 to the north, 70 Street to the east, and 44 Avenue to the south. The Plan Area contains approximately 66.2 ha (163.4 acres).

The land uses in proximity to the West Stettler – Highway 12 South Plan Area include the following:

- North of the Plan Area are utilized for residential (small holding) and agricultural purposes;
- East of the Plan Area are utilized for commercial, residential (small holding) and recreational purposes;
- South of the Plan Area are utilized for agriculture (within the County), country residential (within the County) and recreational (within the Town) purposes; and
- West of the Plan Area are utilized for agricultural, residential (farmstead) and resource extraction (natural gas wells).

1.3 Policy Context

The West Stettler – Highway 12 South Area Structure Plan meets the requirements of Section 633 of the Municipal Government Act and, as such, describes, at a broad level of planning, the proposed sequence of development, land uses, overall density and infrastructure requirements within the plan area.

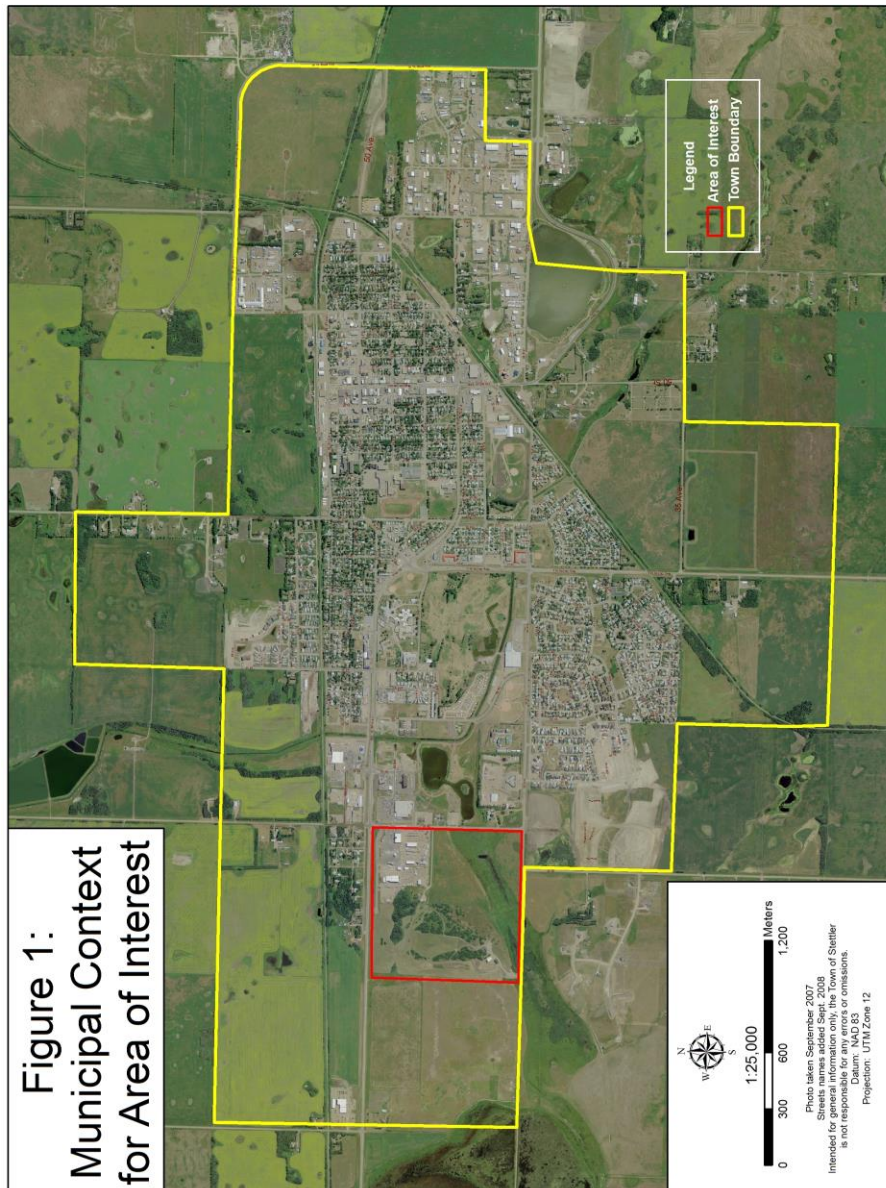

The West Stettler – Highway 12 South Plan Area has been recently annexed to the Town of Stettler. The subdivision design (land use, transportation and servicing) of the Plan Area meets the requirements and policies of the Town.

It is the intent of the owner to develop, subdivide and sell lands adjacent to Highway 12. As the property is adjacent to a highway, it is the intent of the owner to create an area structure plan satisfactory to both the Town of Stettler and the Minister of Transportation.

1.4 Process

The Plan preparation process began by gathering, reviewing and analyzing all relevant information pertaining to future development options within, and around, the plan area.

This Plan is being initially circulated to the County of Stettler No. 6, Alberta Transportation, Alberta Environment, Atco Electric, Altgas Utilities, Shaw Communications and Telus Communications for comment. Input obtained through this part of the consultation process will be considered when making final revisions to the Plan prior to bringing forward an adopting bylaw to Town Council.

2 Existing Conditions

The West Stettler – Highway 12 South Area Structure Plan is contained with the 66.2 hectare (163.40 acre) site legally described as the SE 1-39-20-W4. The Plan Area itself utilizes lands available for mixed business uses, as well as identifying lands in the southern portion for open space and residential purposes. This section summarizes the existing conditions of this area which are significant for identifying an optimal future land use concept, and for formulating appropriate Area Structure Plan policies.

2.1 Natural Features

The topography of the subject quarter drains to the south and east. Much of the lands on the quarter section have been previously cleared for agricultural purposes; however ~~sixteen~~ ~~five~~ parcels have been created through previous subdivisions. There are a few tree stands located throughout the property, and a large low lying area dominates the landscape near the residential site on the remnant portion of the quarter section.

Current natural features and land use are shown on **Figure 2** and include:

- There is a residential site located in the south plan area.
- The low lying lands east of the residential site may be incorporated into a stormwater management system and may form another long term component of the Town of Stettler open space system.

2.2 Current Land Use

There are ~~eleven~~ ~~four~~ properties ~~utilized~~ for ~~commercial~~/industrial purposes, ~~and~~ ~~one~~ ~~two~~ property utilized for residential purposes, ~~two properties used for agricultural purposes and one parcel identified as reserve land.~~ ~~The remnant portion of the quarter section is utilized for residential and agricultural purposes.~~

2.3 Existing Zoning

The land use districts applicable to the plan area were zoned under the County of Stettler No. 6 Land Use Bylaw and included Agricultural zoning for the 127.81 acre remnant quarter section, and Highway Commercial zoning for all other properties. These properties will be re-designated within the Town of Stettler's Land Use Bylaw to Highway Commercial, while the Agricultural zoned property will be zoned Urban Reserve.

2.4 Transportation Features

Figure 3a illustrates the major features of the Plan Area's existing transportation system. The system is comprised of Highway 12 (50 Avenue) and 50 Avenue South; 70 Street; 75 Street; 44 Avenue; and ~~an access right-of-way~~48 Avenue. These features are described as follows:

- Highway 12 bounds the Plan Area to the north. This two lane paved roadway serves as a major provincial highway. It contains acceleration/deceleration lanes, along with traffic lights, at the 70 Street intersection. With a planned intersection to be constructed at the West boundary of the plan area in conjunction with the parcel to the west (SW-1-39-20-W4).
- 50 Avenue South serves as an access to properties which front onto Highway 12. This two lane paved roadway serves as a local road.
- 48 Avenue serves as an access to existing properties and will provide access to the north future residential and undeveloped existing commercial parcels. This two lane paved roadway serves as a local road.
- 70 Street serves as a collector road for the Town of Stettler. This two lane paved roadway serves as a local road. It contains curbs adjacent to developed properties, and contains open ditches adjacent to the undeveloped property (remnant portion of the quarter section).
- 75 Street serves as access for highway commercial properties. This two lane paved roadway serves as a local road.
- 44 Avenue serves as a collector road for the Town of Stettler and will provide access to the south future residential parcel. This roadway is paved from 70 Street to Range Road 201, and graveled thereafter to the west.

2.5 Utilities

2.5.1 Water and Sanitary Sewage

Figure 3b illustrates the major features of the Plan Area's existing utility system. The UFA property (Plan 0325629 Block 1 Lot 1) is served via a 300 mm water main adjacent to 50 Avenue South. There is also a 200 mm water service located on 70 Street south of the UFA property. A 250 mm sanitary service is also located on 70 Street south of the UFA property. All utility services within the plan area are 300 mm diameter water and 250 mm sanitary mains.

Formatted: Highlight

2.5.2 Storm Water Management

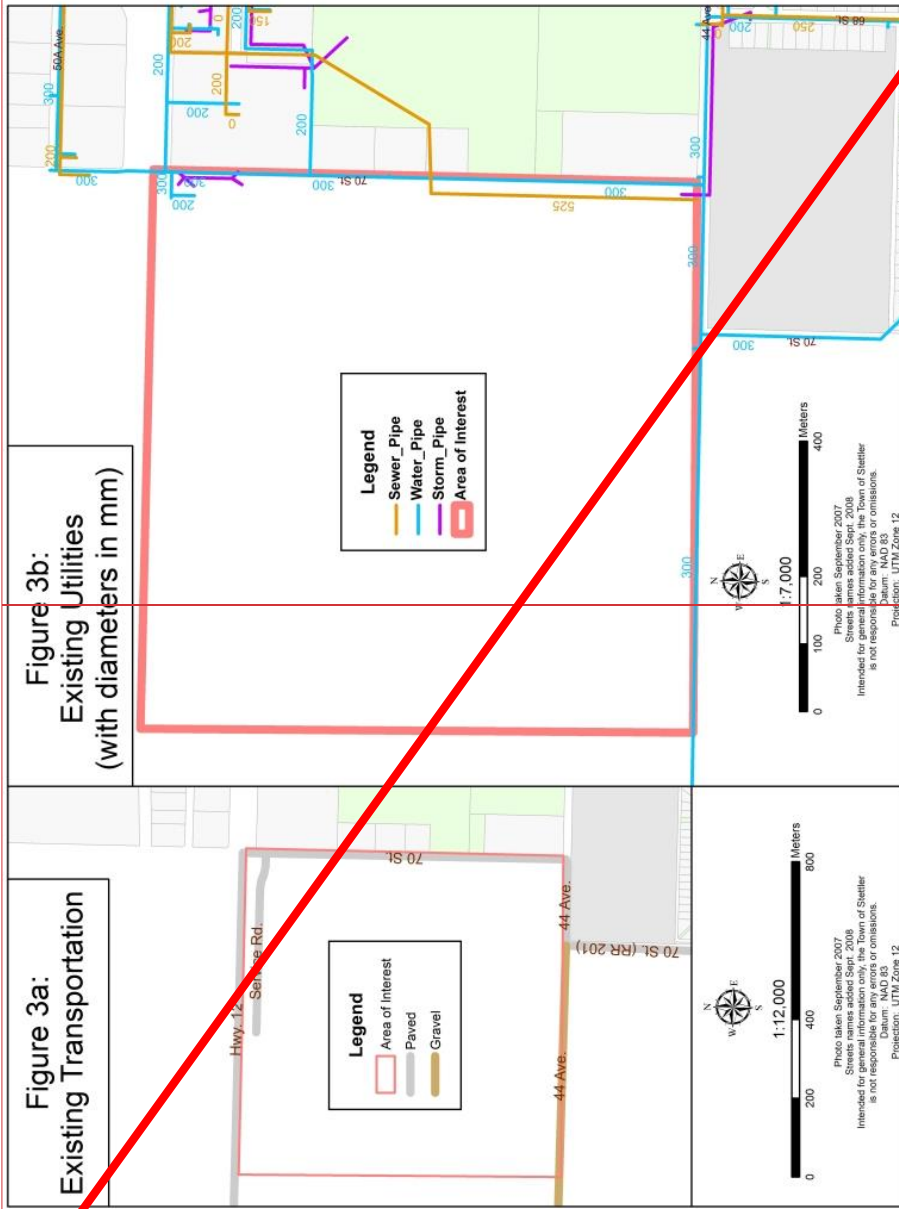

Storm water within the plan area currently drains via overland flow to either the ditch adjacent to Highway 12 or to the slough located on the eastern portion of

the lands adjacent to 70 Street. Storm water management facilities, therefore, should be located to take advantage of this man-made drainage feature.

2.5.3 Major Utility Facilities

Power connection for the development will be through Atco Electric. Natural gas services will be available via Altogas Utilities Ltd. Telecommunications will be available via Telus Communications and Shaw Communications.

2.6 Relevant Plans and Policies

2.6.1 Subdivision and Development Regulation

Section 14(e) of the Alberta Subdivision and Development Regulation states that a subdivision authority shall not approve an application for subdivision if the land that is subject to the application is within 0.8 kilometres of the centre line of a highway right of way where the posted speed is 80 kilometres per hour or greater unless the land is contained within an area structure plan satisfactory to the Minister of Transportation and the proposed use of the lands is permitted under that plan.

2.6.2 Inter-municipal Development Plan

The identified land uses within the Plan Area conform to the “Composite Vision” identified within the Town and County of Stettler Inter-municipal Development Plan.

2.6.3 Municipal Development Plan

The proposed land uses complement the land uses of adjacent lands contained within the Town’s current Municipal Development Plan.

2.6.4 Town of Stettler Growth Study

The identified land uses within the Plan Area conform to the land uses identified by the Town of Stettler within its Growth Study which has been approved by Town Council.

2.6.5 Town and County of Stettler Commercial and Industrial Design Guidelines

All commercial and industrial development projects located within the Plan Area must comply with the Design Guidelines adopted by the Town and County.

2.7 Implications on Future Land Use

Significant implications in regard to opportunities and constraints to future land use and development in the Plan Area result from the area’s existing conditions, relevant plans and policies, and the public input obtained through the communications process. The most significant implications are as follows:

2.7.1 Natural Features Implications

- The lands are highly visible from Highway 12. This means that the highway frontage lands are more valuable for highway commercial and business

industrial uses, but also creates the challenge to ensure that development is visually attractive.

- The low lying lands contained within the plan area will be utilized for future stormwater management and may also be incorporated into the Town's open space system.

2.7.2 Existing Land Use and Zoning Implications

- The proposed land use pattern provides a basis for providing commercial and business industrial uses to the plan area.
- The current residences on the quarter section may not be compatible with the proposed future commercial and business industrial land use pattern.

2.7.3 Natural Resource Implications

- No significant development constraints result from the existing natural resources and related features which are contained within the West Stettler – Highway 12 South Plan Area.
- There is no gas or oil wells within the Plan Area.

2.7.4 Transportation Implications

- Highway 12 provides visibility for commercial development purposes on the north side of the Plan Area. There are two proposed subdivision accesses off of 70 Street.
- This development will ultimately be serviced with paved roadways built to industrial and residential standards. The roadways will be built within 30 metre (for commercial/industrial) and ~~48~~a minimum 16 metre (for residential) rights-of-way.

2.7.5 Utilities Implications

- The West Stettler – Highway 12 South Plan Area will be serviced via underground and overhead utilities.

2.7.6 Fire Protection

- Fire Protection for the West Stettler – Highway 12 South Plan Area will be provided by the Stettler Regional Fire Department.

2.7.7 Implications of Relevant Plans and Policies

- The Town's Municipal Development Plan and Land Use Bylaw are the two planning tools which will be utilized for making decisions on rezoning applications as well as subdivision and development approvals.

3 Future Land Use

The Future Land Use Concept proposed for the West Stettler – Highway 12 South Area Structure Plan is shown on **Figure 4**. The Plan recognizes the implications summarized in Section 2.7. As a result, the Plan reflects the findings of the review of all relevant background information. Specifically, the concept responds to the following critical factors:

- Town of Stettler and County of Stettler's existing statutory plans, with particular emphasis on the Inter-municipal Development Plan;
- Existing conditions such as natural features, current land uses, utility right-of-ways, parcel boundaries, and subdivision and development proposals, which result both in opportunities and constraints for future land use;
- Existing and proposed transportation features;
- The recognition that water and sanitary service will be provided through the existing Town of Stettler distribution system.

The foregoing factors are reflected in the Plan objectives.

3.1 Area Structure Plan Objectives

The Future Land Use Concept reflects the following key objectives of the West Stettler – Highway 12 South Area Structure Plan:

- To provide the opportunity to fully realize the development potential of the Plan Area.
- To protect the integrity of Highway 12, 70 Street, ~~75 Street, 48 Avenue~~ and 44 Avenue affected by the West Stettler – Highway 12 South Area Structure Plan, to the satisfaction of Alberta Infrastructure and Transportation, County of Stettler and Town of Stettler, while still recognizing the opportunities these features provide for development purposes.
- To protect significant environmental features in their natural state, to the extent possible.
- To utilize significant environmental features for landscaping and storm water management.
- To minimize future land use conflicts by promoting a compatible land use pattern, and by applying effective screening and buffer techniques, or an appropriate combination thereof.
- To recognize the physical capacity of the plan area to sustain development based on the understanding that water and sanitary sewer services will be provided via the Town's distribution system.

- To promote commercial, business industrial and residential uses which meet the policy criteria of the Municipal Development Plan in terms of the types of such uses which are best suited to the Town, while recognizing that certain uses are better suited to the highly visible portions of the plan area than others.
- To encourage the development and application of design, landscaping and signage guidelines to enhance the visual qualities of industrial/commercial development.
- To provide a flexible lot layout which can be modified during build-out to suit the clients needs.

3.2 Land Use Concept

All future subdivision and development within the plan area shall conform to the land use concept illustrated in **Figure 4**, ~~and the phasing concept illustrated in Figure 5~~. The land use concept is based on current and anticipated market trends, the objectives of this plan, as well as relevant principles contained in the Town's Municipal Development Plan and Land Use Bylaw.

~~The following table illustrates the land use statistics for the plan area. The plan area is dominated by mixed business, residential, agricultural and open space purposes.~~

Table 4—Land Use Statistics

| Land Use Category— | Area (acres) | % of Area |
|--------------------------|--------------|-----------|
| Mixed Business—Existing | 26.28 | 16.1 |
| Mixed Business—Future | 40.77 | 25.0 |
| Residential | 25.29 | 15.5 |
| Open Space (PUL, ER, MR) | 29.97 | 18.3 |
| Agricultural | 16.56 | 10.1 |
| Roads | 24.52 | 15.0 |
| Total | 163.39 | 100.0 |

Four primary land use categories are proposed by the concept shown on **Figure 4**. This use is described below in the context of the overall concept.

3.2.1 Mixed Business

- The northern portion of the Plan Area provides an ideal mixed business node. The node is in a high visibility location adjacent to Highway 12, and will serve as an extension of the commercial strip that has developed adjacent to the highway within the Town of Stettler. The Highway Commercial and Industrial District's within the Town of Stettler Land Use Bylaw provide a number of uses which will complement the Plan Area. ~~Alberta Transportation has indicated that the Department supports the~~

~~use of a front service road which accesses onto 70 Street. The Department's preference is to have an intersection spacing of one (1) mile on Highway 12, therefore it is the department's preference that an alternate access to the subdivision be also off of 70 Street. The department will only consider allowing/requiring an additional highway access at the northwest corner of the Plan Area only if the 70 Street intersection fails in providing a safe access onto the highway.~~

- Factors considered in designating the lands for mixed business uses include: compatibility with the Stettler Inter-municipal Development Plan and Town of Stettler Municipal Development Plan; and the shared use of transportation infrastructure encouraging compatible development on neighboring land areas.
- All commercial and industrial development shall be required to meet the Town and County of Stettler Commercial and Industrial Design Guidelines.
- It is recognized that special recognition is given to the interface between the commercial/industrial lands and the residential lands, so that potential land use conflicts can be mitigated.

3.2.2 Residential

- The Plan Area accommodates ~~for residential development South of 48 Avenue and North of 44 Avenue. Medium to high density is proposed to align with the Town of Stettler Municipal Development Plan and Intermunicipal Development Plan.~~ large lot "estate" style residences in the form of small holdings which are one (1) acre or less in size. These residences will be located in proximity of a future stormwater management pond/park feature to be constructed within the southeastern portion of the Plan Area.
- Factors considered in designating the lands for residential uses include: compatibility with the Municipal Development Plan; and the desire of the current landowner to accommodate compatible development surrounding his existing residence and to take advantage of the existing and proposed open space infrastructure near/within the Plan Area.

3.2.3 Open Space

- The existing low lying area located within the southeastern portion of the Plan Area will accommodate one (1) large open space feature, which will serve multiple purposes including public utility (stormwater management), and municipal reserve (park development).

3.2.4 Agricultural

- The Plan Area accommodates the agriculturally zoned property being maintained within the southwestern portion of the Plan Area.

3.3 Transportation System

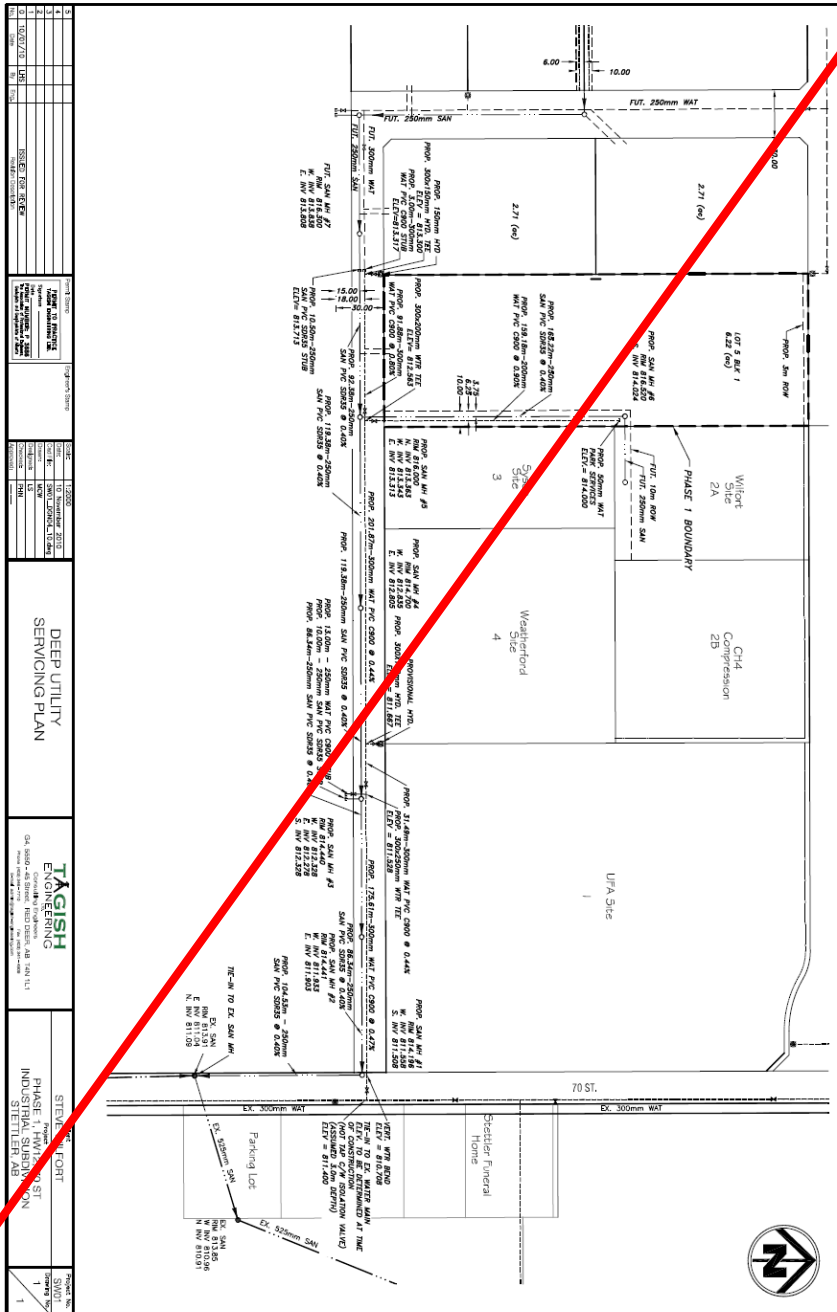

To service the West Stettler – Highway 12 South Area Structure Plan, there are 2 access points from 70 street at 50 Avenue and 48 Avenue, an access point identified from 44 Avenue and a proposed highway 12 intersection at the west boundary of the plan area in conjunction with SW 1-39-20-W4. Internal road networks for the residential parcels will be identified and approved through subdivision application, however access connections are identified on 48 Avenue and 44 Avenue as shown on Figure 4. hree roads accessing 70 Street and one road accessing 44 Avenue has been proposed. In order to develop Phase 1a and Phase 1b of the Plan Area, it is proposed that the 50 Avenue South service road adjacent to Highway 12 is extended to the western portion of the Plan Area, and a new street be developed south extended to a future east-west avenue accessing 70 Street. The Phase 1a and 1b transportation concept is shown in Figure 6.

Formatted: Font: Bold

3.4 Utility Systems

Future development in the plan area will rely on municipal water and sanitary system for service. The minimum lot size proposed for the commercial and business industrial lands is 0.4 hectares (1.0 acres), while the maximum lot size proposed for the residential lands is 0.4 hectares (1.0 acres). The Phase 1a and 1b utility concept is shown in Figure 7.

4 Area Structure Plan Policies

The policies listed below are to be applied at the time of new subdivision and development. All existing statutory plans and policies, particularly those policies contained in the Municipal Development Plan and Land Use Bylaw, also must be applied.

4.1 Land Use Policies

4.1.1 Mixed Business

1. All future commercial and industrial development within the Plan Area shall be in accordance with the requirements stipulated in the Highway Commercial or Industrial District of the Town's Land Use Bylaw, and meet the provisions of the Town and County of Stettler Commercial and Industrial Design Guidelines;
2. All developments shall front onto the forced serviced road or roads extending from the forced service road;
3. The minimum parcel size for lots will be 0.4 hectares (1.0 acres);
4. Development shall be restricted to non-polluting operations as per Alberta Environment Standards and Guidelines;
5. Municipal Reserve shall be deferred to be utilized within the southern portion of the Plan Area at the time of subdivision.

4.1.2 Residential

1. All future residential development within the Plan Area shall be in accordance with the requirements stipulated in ~~the Residential Small Holdings District of the Town's Land Use Bylaw, and Municipal Development Plan;~~
2. ~~The maximum parcel size for lots will be 0.4 hectares (1.0 acres);~~
3. ~~Municipal Reserve shall be provided by land at the time of subdivision.~~

4.1.3 Agricultural

1. The remnant residence on the agriculturally zoned property will be zoned as Urban Reserve within the Town's Land Use Bylaw.

4.2 Transportation Policies

- ~~4.—To service the West Stettler – Highway 12 South Area Structure Plan, there are 2 access points from 70 stree at 50 Avenue and 48 Avenue, an access point identified from 44 Avenue and a proposed highway 12 intersection at the west boundary of the plan area in conjunction with SW 1-39-20-W4. Internal road networks for the residential parcels will be identified and approved through subdivision application, however access connections are identified on 48 Avenue and 44 Avenue as shown on Figure 4. The Plan Area shall be accessed via roads accessing either 70 Street or 44 Avenue in accordance with Figure 6.~~
- ~~2.1~~ All roads shall be constructed to Town standards: roads serving commercial and industrial properties will be developed within 30 metre right-of-ways; while roads serving residential properties will be developed within a minimum 16.48 metre right-of-ways. All roads will be serviced via paved structures utilizing a rural cross section.
- ~~3.2~~ The Developer shall be responsible for the cost of constructing all new roads within the Plan Area.

4.3 Utilities Policies

1. A stormwater management facility will be constructed within the open space southeast portion parcel of the Plan Area to handle the runoff and control release rates. All subdivisions shall provide stormwater management plans which identify appropriate storm water management techniques to the satisfaction of Alberta Environmental Protection and the Town.
2. On-site storage of stormwater for each mixed business lot may be required to prevent the storm sewer system from being overloaded and excessive runoff in the streets.
3. The Plan Area will be fully serviced by sanitary sewer. This will consist of gravity mains connecting to the sanitary trunk main at 70 Street.
4. The Plan Area will be fully serviced by water. This will consist of a “looped” system via existing municipal stubs located at 70 Street.
5. Shallow utilities (electricity, natural gas, telecommunications) will consist of both underground and overground facilities.

4.4 Plan Administration and Implementation

1. Pursuant to the provisions of Section 633(1) of the Municipal Government Act, 1995, this Area Structure Plan shall be adopted by the Town of Stettler as the West Stettler – Highway 12 South Area Structure Plan. All subdivision and development within the Plan Area shall be in accordance with the provisions and policies of this plan.

2. Council may, from time to time, choose to amend this Area Structure Plan. As part of the amendment process, the required public hearing process will ensure that the continued input of the landowners and residents is considered.

Agenda Item:

Issue:

Application for Land Use Bylaw Amendment: Bylaw 2143-21

Legal: Lot 8, Block 2, Plan 2022777 and Lot 1, Block 2, Plan 1423578

Civic: 7201-46 Avenue and 7002-44 Avenue

Applicant: Nautical Lands Group c/o Stantec

Proposed Land Use Bylaw Amendment:

1. The addition of Definition "Group Use Facility"
2. The addition of a R2B: Multi-Unit Residential District, and
3. That Lot 8, Block 2, Plan 2022777 be rezoned from UR: Urban Reserve and C2: Highway Commercial to R2B: Multi-Unit Residential District; and
4. That Lot 1, Block 2, Plan 1423578 be rezoned from UR: Urban Reserve to R2B: Multi-Unit Residential District.

Recommendation:

That Council consider the application and give 1st Reading to Land Use Bylaw Amendment 2143-21 to add the Definition "Group Use Facility", add the R2B: Multi-Unit Residential District, that Lot 8, Block 2, Plan 2022777 be rezoned from UR: Urban Reserve and C2: Highway Commercial to R2B: Multi-Unit Residential District and that Lot 1, Block 2, Plan 1423578 be rezoned from UR: Urban Reserve to R2B: Multi-Unit Residential District.

General:

The applicant is proposing to amend the Land Use Bylaw and rezone the above-mentioned parcels from UR: Urban Reserve and C2: Highway Commercial to R2B: Multi-Unit Residential District. The applicant has requested the amendment to accommodate the development of a 432 unit seniors residential development "Wellings of Stettler" that will include multi-unit row housing developed in 3 phases with phase one consisting of a Group Use Facility (clubhouse) and 154 dwelling units. Attached is the proposed concept plan and proposed subdivision and land use plan.

The applicant is currently preparing the application for subdivision, at which time the conditions for development including municipal improvements (roads, services, storm and etc.) will be addressed. The applicant will be required to enter into a Development Agreement with the Town of Stettler to ensure that all improvements are completed and approved by the Town of Stettler for final acceptance.

The Land Use Bylaw and Area Structure Plan Amendment applications have been accepted by the Town and are being processed concurrently with both applications before council for consideration of 1st Reading. Following 1st Reading a public hearing will be set for the Land Use Bylaw and Area Structure Plan Amendment on June 15, 2021. Administration respectfully recommends that Council not proceed to 3rd and final reading of the Land Use Bylaw Amendment Bylaw 2143-21 until such time that the applicant has entered into a Development Agreement with Town of Stettler as a condition of the subdivision approval.

Background:

The properties in question are UR: Urban Reserve parcels that are currently vacant hay land and the change in use to R2B: Multi-Unit Residential is consistent with the intent of the West Stettler Highway 12 South Area Structure Plan.

Legislation and Policy:

Staff has assessed this application against the provisions outlined in the Town of Stettler Land Use Bylaw, the West Stettler Highway 12 South Area Structure Plan, the Municipal Development Plan, and the Intermunicipal Development Plan

Alternatives:

Defeat the application stating reasons.

Dear Minister Madu,

Re: Alberta Provincial Police Service Transition Study

On behalf of Town of Didsbury Council, I am writing to advise you of our Council's ongoing support for the Royal Canadian Mounted Police (RCMP) as our province's police force of choice. As well, please know that our Council opposes the creation of an Alberta provincial service to replace the RCMP.

In listening to and reviewing the presentations from the recent AUMA/RMA Policing Summit in February of 2021, the opening presentation by you, our Minister of Justice and Solicitor General, spoke of "citizens demanding democratic, community-based policing, a renewed commitment to improving policing in the province, and the need for police to work with community partners and citizens to ensure effective community policing." Minister Madu, I am pleased to say that our community has democratic, community-based policing, our detachment meets with us regularly as part of their commitment to optimal two-way communication that invites, welcomes, and listens to our input, and our detachment also works with our municipality and our citizens as community partners. Your comment on your "Why Now" PowerPoint slide at the Summit references the "impact of George Floyd's death and public outcry," an American policing situation, "calls to defund the police," which to many means to add funds to social supports in policing situations, and "concerns of systemic racism," an issue our entire country continues to work to address and resolve. We believe there is no support shown that an Alberta police service would solve any of these issues any more effectively than the RCMP.

On your "Reforming Police - What are we doing now" slide presentation, I offer the following observations:

Improve Public Trust in Policing: We believe there is trust in our municipality and that it is not lost and/or diminishing.

Modern Governance Framework: The RCMP presentation by Deputy Commissioner was excellent; the RCMP present an impressive modern governance framework that constantly evolves with changing times, again displayed in our community.

Effective Police Complaints Process for Alberta: We all constantly work on better complaint processes, including the provincial government and our local municipal government here in Didsbury. The RCMP presentation displayed information about (and Didsbury experiences and is part of these) annual performance plans, community/detachment commander relationships, community reporting templates, and community policing advisory committees. We believe that working with the RCMP as the Alberta police force of choice is more likely to succeed than setting up yet another entity who will have to build from scratch, is costing millions to explore, and will cost hundreds of millions more to implement.

Improve relationship with Indigenous Peoples: This is an important and prioritized initiative across our country, not just in our province, and, again, the RCMP are most likely to succeed with the current initiatives they have underway in their system that display their commitment to improving relationships throughout the communities they serve.

Direct consultation with municipalities regarding the creation of an APPS has been limited. PwC's Phases, Activities, and Timelines indicate there have been envisioning workshops and interviews from October 12 through December 18, 2020. Of note our community was not invited to participate (and we have had an RCMP detachment in our town for 25+ years) and, in speaking with colleagues in our region (who have also had RCMP detachments in their towns for many years), I have heard no one indicate they participated in these workshops and interviews. If municipalities who are served by RCMP detachments are excluded from this conversation, valuable information and feedback is left unheard from affected municipalities.

The Policing Transition Study being undertaken by our province is in response to the Fair Deal Panel's (FDP) recommendation #14: Create an APS to replace RCMP. The FDP reported that 68.5% of respondents were from Calgary and Edmonton regions. Calgary and Edmonton have their own police services, which should be considered when studying the transition from the RCMP. Another FDP finding was that only 35% of respondents supported the idea of creating an APS.

Finally, in the Alberta Police Federation survey from October of 2020, it was found that "replacing the RCMP is viewed as a least helpful measure tested to improve Alberta's place in Canada." Only 8% say replacing the RCMP helps a lot, only 6% support replacing the RCMP, 81% of Albertans served by RCMP are satisfied with the service they receive, and 70% of Albertans oppose replacing the RCMP with an expensive new provincial police service.

There is so much convincing support for the RCMP in Alberta, and, with the strong and effective RCMP that serve us so well in Alberta, our Council supports the programs, initiatives, and progress of the RCMP in meeting our community's policing demands. I again reiterate our Council's support for the RCMP remaining as Alberta's police force of choice.

On behalf of Council,

Yours truly,

Rhonda Hunter

RE: County of St. Paul Support for the RCMP

Dear Minister Madu,

The County of St. Paul Council wishes to join the Municipality of Crowsnest Pass, the Town of Morinville, the County of Paintearth No. 18 and the City of Magrath, in expressing our disappointment with the Government of Alberta's unwillingness to accept the results of its own review process and that it seems to be continuing on the path of replacing the RCMP with an Alberta Provincial Police Service (APPS).

Our local RCMP detachment's current level of service and degree of responsiveness, in addition to their community involvement meets our County resident's needs quite suitably. Furthermore, the collaborative nature that our local RCMP encompasses with our County Council by regularly meeting to review performance plans and projects, gives them a positive recognizable presence within our County.

The bureaucratic provisional expenditure that would be required to complete such a change to a Provincial Police is concerning, as the transition costs are inadequately explained, the County worries that operating costs will inevitably rise, resulting in increased costs borne by Municipalities. These additional costs will require additional taxation onto our County residents for us to be able to repay the Province for the Police funding model.

There has been no conclusive proof that an APPS would result in better outcomes, particularly with the expected increase in costs. With our current challenging economic

times, our Council would like to see your government take time to listen to municipal stakeholders as well as the respondents of the Fair Deal Panel's consultations, cancel the transition study, and increase the efforts to work with the RCMP in achieving better outcomes through the Police Act review.

Sincerely,

Steve Upham

Attention: Honourable Kaycee Madu

Dear Honourable Madu:

Re: Letter in support of the RCMP

Please accept this letter as Edson Town Council's support for the Royal Canadian Mounted Police (RCMP) and in opposition of the Provincial Government's recent proposal of an Alberta Police Force.

While the Province suggests that the switch from the RCMP to an Alberta Provincial Police Service (APPS) will not cost municipalities more financially, we do not believe this is realistic. Who will bare the cost of this service? Currently, Edson RCMP operate out of a Federally owned building. Should there be a switch to an APPS, who would assume the cost of a new detachment? Not to mention all of the other infrastructure that would be required to build an APPS. It does not seem feasible that these costs would not end up being borne by the municipality and their residents and that these would not exceed the current costs of providing RCMP services, given the significant investments that would be required and the loss of Federal Funding.

Currently, the RCMP is our largest budgetary item, and this cost only keeps growing as the Provincial Government takes away sources of revenue and downloading additional costs to us. The Province has recently decreased the percentage of revenue from fines that municipalities receive. This money was used by the Town to directly offset the cost of policing. Further, just this year we received a bill from the Provincial Government for the provincial portion of Biology Casework Analysis Agreements expenses. A cost that was not the responsibility of a municipality in the past and was given to us with little to no notice. These cuts and downloads increase costs

to our Town by ~\$350,000-\$400,000; equating to a 3.5%-4% tax increase for our residents. Given this, what protections would be in place to ensure municipalities are not continuously charged more under an APPS model? It seems more realistic that it would only be a matter of time before more costs were downloaded to municipalities for operation of the APPS.

We have worked hard as a municipality to build a strong working relationship with our local RCMP Detachment. They are our partners and an integral part of our community. We are happy with the level of service our RCMP provide and their participation within our community.

We strongly encourage the Provincial Government to use the funds dedicated to researching an APPS, towards building stronger relationships with the RCMP and the Federal government to achieve desired outcomes. The Province repeatedly encourages municipalities to work with each other and come up with new and collaborative ways to provide programs and services to our residents in a cost-effective manner. We implore your Government to do the same and work with your Federal counterparts to achieve the Province's goals related to the RCMP and Policing and to emulate the principles in which they ask of municipal governments within the Province.

Yours truly,

TOWN OF EDSON

RE: PROPOSED PROVINCIAL POLICE SERVICE

At the last regular meeting of Claresholm Town Council held Monday, May 10, 2021, Council discussed the province's proposed plan to replace the RCMP in Alberta with a provincial police force. The Town of Claresholm has received communication from many other municipalities in Alberta through the Alberta Urban Municipalities Association (AUMA) that are deeply concerned about this proposal, and Council recently met with the National Police Federation who are advocating to keep the RCMP in Alberta.

Municipalities in Alberta continue to be faced with having to provide services and support for our residents while funding streams have been significantly cut. This means that our residents are directly affected financially by choices being made at the provincial level. The Alberta Government has instituted a new police funding model that includes communities under 5,000 such as ours to be charged on an increasing scale for policing that we have never been burdened with directly before. With this being the case, should the municipalities not be in a stronger position to have an impact on decisions that are being made?

The current Alberta Government seems to be very focused on moving towards a greater autonomy away from the federal government and other provinces. Having control over a provincial police force must be very appealing for a government that wants to exert its independence, however the Town of Claresholm is asking your government to reconsider this undertaking and focus on other, more pressing matters instead.

The Town of Claresholm appreciates our local RCMP Detachment and has a good relationship with the members. We feel very comfortable with the service that they provide to our residents. If your government truly cares about Alberta residents, this proposal should not proceed and more focus should be placed on working with the existing police force.

If you have any questions or concerns regarding this issue, please contact the undersigned at your convenience.

RE: Alberta Provincial Police Service

Dear Minister Madu,

Please be advised that Raymond Town Council is opposed to the creation of a provincial police service to replace the RCMP. After reviewing the Fair Deal Panel's *Report to Government* (as well as the many letters currently circulating from municipal elected officials opposing a provincial police force) Raymond Town Council is voicing its opposition to the proposed provincial police force. There are a couple particularly concerning items identified in the Fair Deal Panel's report, namely:

- the Fair Deal Panel's recommendation to proceed with developing a proposal for a provincial police force, despite only 35% of Albertans believing the police force would contribute to the desired outcome of helping Alberta improve its position in the federation.
- Provincial and municipal governments possibly absorbing \$112 million policing costs currently covered by the federal government (which would be in addition to the increasing policing costs incurred by municipalities under the Police Funding Model).

In these times of increasing public participation and consultation, struggling economies and tighter budgetary realities, we feel the above concerns should have been enough to convince the provincial government not to proceed with researching this issue.

Furthermore, and perhaps most importantly, we have an excellent relationship with our local RCMP force and feel no need to replace them with a provincial force. The RCMP in Raymond have always been responsive to our Council's requests and have consistently delivered professional, quality public safety services in our community.

Sincerely,

Jim Depew

Annual Report 2020

Parkland Regional Library System

Expanding opportunities for discovery, growth, and imagination for all Central Albertans

The Parkland Library Board thanks our member municipalities and the Government of Alberta for continued funding. With your help we supported our 49 public libraries throughout the pandemic.

2020 was a challenging year for everyone; face masks and hand sanitizer became daily routines and libraries were mandated closed to the public along with many other services. Libraries responded and continue to adapt service to meet evolving community needs. Perimeter Wi-Fi access, curbside pickup, virtual programming, take-away craft kits, and increased digital content are some ways our libraries met the changing needs brought about by the COVID-19 pandemic.

We Responded, We Innovated, We Adapted

Parkland stayed open to support our member libraries. We:

- Maintained all core services
- Increased eLibrary investment
- Increased communication
- Distributed masks for the GOA through libraries
- Installed 100+ computers
- Transitioned 37 libraries to SuperNet 2.0
- Increased digital collections by 20%
- Shared virtual resources for staff and patrons

2020 Impacts & Outcomes

- 25% increase in database use
- 47% increase in digital circulation
- 400% increase in remote support sessions
- Continued van deliveries to circulate library material
- 18 virtual meetings with libraries
- 59 updates delivered to stakeholders
- Website traffic increased by 7%

We delivered **59 email newsletters** to member municipalities and libraries between March and December.
