Green Tips for July (attached) **G**.

July 3, 2023

<u>GREEN TIP OF THE WEEK</u> "Buy it where you burn it"

Don't transport firewood from one region to another. It can spread invasive insects and disease that can be fatal to other trees. Buy it where you burn it.

No one can do everything. Everyone can do something. Sponsored by the *Heartland Beautification Committee*

July 10, 2023

<u>GREEN TIP OF THE WEEK</u> "Grass Cycling"

Leave the grass clippings on the lawn. It's better for your lawn and less work for you. Give it back to the soil that grows it.

No one can do everything. Everyone can do something. Sponsored by the *Heartland Beautification Committee*

July 17, 2023

<u>GREEN TIP OF THE WEEK</u> "Line-dry your clothes"

Sunshine is the best dryer and it's free! It kills germs, there's no need for chemical dryer sheets, and it saves energy and money. Or use an indoor drying rack.

No one can do everything. Everyone can do something. Sponsored by the *Heartland Beautification Committee*

July 24, 2023

<u>GREEN TIP OF THE WEEK</u> "Ceiling fan directions & speeds"

Ceiling fan directions and speeds matter: Summer – counterclockwise, good speed, to create a breeze Winter – clockwise, slow speed, to push warm air down Using a fan (consumes 50 watts) at the same time as your A/C (3500 watts) reduces A/C consumption.

July 31, 2023

GREEN TIP OF THE WEEK "1 degree = 10% less cost"

Setting your thermostat 1 degree warmer for A/C or 1 degree cooler for heat will save 10% on your energy consumption.

No one can do everything. Everyone can do something. Sponsored by the *Heartland Beautification Committee*
